

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6MM ARC BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

- Name: [L.E. WILSON 6MM ARC BULLET SEATING DIE](#)

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM ARC BULLET SEATING DIE

Introduction

Thank you for choosing the L.E. Wilson 6mm ARC Bullet Seating Die. This product is designed for precision bullet seating and is particularly favored by benchrest shooters. To ensure safe and effective use of this product, please read and follow the safety guidelines outlined in this document.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a bullet seating die.
- Always handle the die with care to avoid injury or damage.
- Store the die in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the bullet seating die.
- Keep hands and body away from moving parts during operation.
- Ensure that the work area is clean and free of obstructions to prevent accidents.
- Do not exceed the maximum load recommendations provided by the bullet and powder manufacturers.
- Never attempt to modify the die or use it for any purpose other than bullet seating.

Instructions for Installation and Usage

1. Installation:

- Securely mount the bullet seating die into a compatible reloading press.
- Ensure that the die is tightened properly to avoid movement during use.
- Adjust the seating depth according to the specifications for the bullet being used.

2. Usage:

- Prepare your cartridge cases as per standard reloading procedures.
- Insert a cartridge case into the die, ensuring it is fully seated.
- Place the bullet into the case mouth and align it with the die.
- Using the reloading press, apply steady pressure to the seating stem to push the bullet into the case.
- Check the overall length of the cartridge to ensure it meets your specifications.
- Repeat the process for additional cartridges, maintaining consistent pressure and alignment.

Disposal Instructions

- Dispose of any unused or damaged parts in accordance with local regulations.
- Do not dispose of the product in household waste. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding this product, please reach out to the designated EU contact point for assistance.

Conclusion

By following these safety guidelines and instructions, you can ensure the safe and effective use of your L.E. Wilson 6mm ARC Bullet Seating Die. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety measures.
