

# COMPETITION SEATER DIES - REDDING 28 NOSLER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001"" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

# Safety Instruction Guide for Redding Competition Seater Die

## Introduction

Thank you for choosing the Redding Competition Bullet Seater for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read through this document carefully to understand the safety guidelines and best practices associated with the Redding Competition Bullet Seater.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate personal protective equipment (PPE), including safety glasses, when reloading.
- Keep all reloading materials, including powder and primers, out of reach of children and unauthorized individuals.
- Store the seater die in a secure location when not in use to prevent accidents or misuse.
- Regularly inspect the die for any signs of wear or damage. Do not use if any part is damaged.
- Follow all local regulations regarding the handling and storage of ammunition components.

## Specific Safety Precautions for Use

- Always ensure that the die is securely mounted to the reloading press before use.
- Do not exceed the recommended seating depth adjustments as specified in the product manual.
- Avoid distractions while reloading and maintain focus on the task at hand.
- Use only compatible cartridges, specifically the 28 Nosler, with this die to prevent malfunctions.
- Never attempt to modify the die or use it for purposes other than intended.
- Be cautious when adjusting the micrometer to avoid unintentional changes in seating depth.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is turned off and unplugged.
- Securely attach the Redding Competition Bullet Seater die to the press using the appropriate threads (7/814).
- Confirm that the die is tightened adequately to prevent movement during operation.

### 2. Usage:

- Set the micrometer to your desired seating depth, ensuring it is calibrated correctly in .001" increments.
- Place a cartridge case in the press and insert the bullet into the case mouth.
- Slowly lower the ram to seat the bullet. Monitor the micrometer to ensure the desired depth is achieved.
- After seating, check the overall length of the cartridge to confirm it meets specifications.
- If adjustments are necessary, raise the ram, make the change, and repeat the seating process.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of ammunition components in regular household waste. Follow guidelines for hazardous waste disposal if applicable.

- Ensure that all materials are stored safely until they can be disposed of properly.

## Contact Information for Further Support

For any questions or concerns regarding the Redding Competition Bullet Seater, please refer to the manufacturer's contact information provided on the product packaging or visit the manufacturer's website for support.

By following these safety instructions, you can ensure a safe and efficient reloading experience with the Redding Competition Bullet Seater. Always prioritize safety and adhere to best practices to avoid accidents and ensure the longevity of your equipment.
