

DIGITAL CALIPERS - MEC RELOADING DIGITAL CALIPERS

[Reloading](#) > [Measuring Tools](#) > [Calipers](#)

Measure with Precision and Accuracy

Digital calipers from MEC Reloading can be used to measure brass or finished cartridges with extreme precision and accuracy. The calipers have a locking screw to maintain specific measurements for quick measurements without sacrificing consistency. MEC Reloading Digital Calipers measure in both inches and millimeters. Measuring range: 0-6", 0-150mm Accuracy: $\pm 0.001"$ /0.02mm Repeatability: 0.0005"/0.01mm The Digital Calipers are made in the USA, as are all MEC Reloading machines and accessories.

Safety Instructions for DIGITAL CALIPERS MEC RELOADING DIGITAL CALIPERS

Introduction

Thank you for choosing the DIGITAL CALIPERS MEC RELOADING DIGITAL CALIPERS. These precision tools are designed to measure brass or finished cartridges with exceptional accuracy. To ensure safe usage and optimal performance, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure the calipers are used only for their intended purpose of measuring brass or finished cartridges.
- Keep the calipers out of reach of children and vulnerable individuals to prevent accidents.
- Inspect the calipers before each use to ensure they are functioning correctly and free from damage.
- Do not use the calipers if they are damaged or malfunctioning; contact the manufacturer for assistance.
- Follow all local regulations regarding the use of measuring tools.

Specific Safety Precautions for Use

- Always handle the calipers with care to avoid dropping or damaging them.
- Avoid exposing the calipers to extreme temperatures, moisture, or corrosive substances.
- Use the locking screw to maintain specific measurements to ensure consistency and accuracy.
- Do not force the calipers beyond their measuring range (0.6 inches or 0.150 mm).
- When measuring, ensure the surfaces are clean and free from debris to avoid inaccurate readings.

Instructions for Installation and Usage

1. Preparation:

- Remove the calipers from the packaging.
- Inspect the calipers for any visible damage.

2. Setting Up:

- Ensure the calipers are in the closed position before turning them on.
- Press the power button to activate the digital display.

3. Measuring:

- Open the calipers gently and place the item to be measured between the jaws.
- Close the jaws until they make contact with the item without applying excessive force.
- Read the measurement displayed on the digital screen.
- Use the locking screw to hold the measurement if needed.

4. Switching Units:

- To switch between inches and millimeters, refer to the user manual specific to your model.

5. After Use:

- Turn off the calipers to conserve battery life.
- Clean the calipers with a soft, dry cloth to remove any residue.
- Store the calipers in a protective case to prevent damage.

Disposal Instructions

- Dispose of the DIGITAL CALIPERS MEC RELOADING DIGITAL CALIPERS in accordance with local waste disposal regulations.
- Do not dispose of electronic components in regular household waste.
- Consider recycling options for electronic devices to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the DIGITAL CALIPERS MEC RELOADING DIGITAL CALIPERS, please refer to the manufacturer's contact information provided with your product documentation.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
