

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 338 EDGE BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 338 EDGE BULLET SEATING DIE

## Introduction

Thank you for choosing the L.E. Wilson 338 Edge Bullet Seating Die. This product is designed for precision bullet seating, ensuring optimal performance for benchrest shooters. To ensure your safety and the effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the bullet seater in a wellventilated area to avoid inhaling any dust or debris.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the bullet seating die for wear or damage before use.
- Store the die in a dry place to prevent corrosion or damage.
- Ensure that all components are compatible and fit correctly before use.
- Report any incidents or unsafe conditions to the appropriate authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:** The die has sharp edges and moving parts that can cause injury. Handle with care.
- **Personal Protective Equipment (PPE):** Always wear safety glasses to protect your eyes from debris when using the bullet seater.
- **Avoid Overloading:** Do not exceed the recommended bullet specifications for the die.
- **Alignment:** Ensure proper alignment of the bullet and cartridge case to prevent jams or misfires.
- **Cleaning:** Use appropriate cleaning tools and methods to maintain the die. Avoid using harsh chemicals that may damage the product.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Insert the bullet seating die into the reloading press, tightening it according to the manufacturer's specifications.
- Adjust the seating depth according to your requirements before starting.

### 2. Usage:

- Place a cartridge case into the die, ensuring it is positioned correctly.
- Insert the bullet into the case mouth.
- Using the closefitting seating stem, gently push the bullet into the case until it is seated to the desired depth.
- Check the alignment of the bullet and case after seating to ensure accuracy.
- Repeat the process for additional cartridges as needed.

### 3. PostUsage:

- After use, clean the die with a soft cloth to remove any residue.
- Store the die in its original packaging or a protective case to prevent damage.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling options or designated disposal sites in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the L.E. Wilson 338 Edge Bullet Seating Die, please consult the product packaging or visit the manufacturer's website for further assistance.

By following these safety instructions, you can ensure a safe and effective experience with your L.E. Wilson bullet seating die. Thank you for your attention to safety!
