

# COMPETITION SEATER DIES - REDDING 300 PRC BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001"" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

# Safety Instructions for Redding Competition Seater Die 300 PRC

## Introduction

Thank you for choosing the Redding Competition Bullet Seater Die for your reloading needs. This guide provides essential safety instructions to ensure the safe use of this product. Please read and understand all safety guidelines before using the die.

## General Safety Guidelines

- Ensure that you are familiar with the reloading process and equipment before using this die.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Inspect the die regularly for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading and usage.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use this die only for the specified cartridge, which is the 300 PRC.
- Ensure that your reloading press is compatible with the 7/814 thread size of the die.
- Avoid overtightening the die in the press, as this may cause damage.
- Always doublecheck your measurements when adjusting seating depth to prevent overseating or underseating the bullet.
- Do not attempt to modify the die in any way, as this can lead to unsafe conditions.
- Store the die in a dry, cool place when not in use to prevent corrosion and damage.

## Instructions for Installation and Usage

### 1. Installation:

- Clean the threads of the die and reloading press to ensure a proper fit.
- Screw the die into the reloading press until it is snug but not overly tight.
- Set the micrometer to your desired starting seating depth.

### 2. Usage:

- Prepare your brass cases as per standard reloading practices.
- Insert a bullet into the case mouth.
- Place the case in the reloading press and lower the ram to seat the bullet.
- Adjust the micrometer as needed for precise seating depth. The micrometer is calibrated in .001" increments and is infinitely adjustable.
- After achieving the desired seating depth, use the zero set feature to mark this depth for future reloads.
- Inspect each round after seating to ensure proper bullet placement and depth.

## Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not throw the die in regular household waste; consult your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further support, please refer to the product packaging for contact information of the manufacturer. It is important to have access to a reliable source for assistance regarding safety concerns or product issues.

By following these guidelines, you can ensure a safe and effective reloading experience with your Redding Competition Bullet Seater Die. Thank you for prioritizing safety in your reloading practices.
