

NECK SIZING DIES - REDDING 6.5 WHETHERBY RPM NECK SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Attributes

- Name: [REDDING 6.5 WHETHERBY RPM NECK SIZING DIE](#)
- Manufacturer: [REDDING](#)

Safety Instruction Guide for Redding Neck Sizing Dies 6.5 Weatherby RPM

Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides important safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before using the neck sizing die.

General Safety Guidelines

- Always handle the die with care to prevent injury.
- Ensure that your workspace is clean and organized to avoid accidents.
- Use the die only for its intended purpose, which is to size the necks of bottleneck cases.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of damage or wear before use.
- Follow all local laws and regulations regarding reloading practices.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses and gloves, while using the die.
- Do not use the die on fired cases from different rifles, as this can lead to safety hazards and accuracy issues.
- Avoid applying excessive force when using the die, as this can lead to deformation or damage.
- Ensure that the die is securely mounted in your reloading press before use.
- Be aware of the potential for brass shavings or debris during the resizing process; clean your workspace accordingly.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is compatible with the Redding Neck Sizing Die.
- Clean the die and press area before installation to remove any debris.
- Securely mount the die into the reloading press according to the manufacturer's instructions.
- Adjust the die to the correct position for sizing the neck of your brass cases.

2. Usage:

- Start with fired brass cases that are clean and free of dirt.
- Insert the brass case into the die and ensure it is properly aligned.
- Slowly operate the reloading press handle to size the neck of the case.
- After resizing, remove the case and inspect it for proper sizing.
- Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of any damaged or worn dies according to local regulations.
- Recycle brass cases in accordance with local recycling guidelines.
- Do not dispose of the die in regular household waste; consult local waste management services for proper disposal options.

Contact Information for Further Support

For any inquiries or concerns regarding the Redding Neck Sizing Die, please refer to the contact information provided with your product packaging or visit the manufacturer's website for further assistance.

By following these guidelines and instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die. Thank you for your attention to safety.
