Safety Instruction Guide for Redding Neck Sizing Die Sets

Introduction

Thank you for choosing the Redding Neck Sizing Die Sets for your reloading needs. This guide provides important safety information and instructions to ensure the safe and effective use of your product. Please read this guide carefully before using the product.

General Safety Guidelines

- Always ensure that your work area is clean and organized to prevent accidents.
- Wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Do not use the product for any purpose other than its intended use.
- Regularly inspect the dies for wear or damage before use.
- Ensure that you are familiar with the reloading process and follow all recommended practices.

Specific Safety Precautions for Use

- Avoid direct contact with any chemicals or materials used in the reloading process.
- Ensure that the decapping rod assembly is properly secured before use to prevent accidents.
- Do not exceed the recommended load specifications for your ammunition.
- Always handle ammunition with care, and store it in a secure location.
- Be aware of your surroundings and ensure that no one is in the vicinity when operating the equipment.

Instructions for Installation and Usage

1. Setup of the Neck Sizing Die:

- Remove the die from its packaging and inspect for any damage.
- Install the neck sizing die into your reloading press following the manufacturer's instructions.
- Ensure the die is tightened securely to prevent movement during operation.

2. Using the Neck Sizing Die:

- Insert the case into the shell holder and raise the ram to engage the die.
- Use the decapping rod assembly to remove the spent primer from the case.
- Adjust the neck expander button as needed to achieve the desired neck tension.

3. Setup of the Seating Die:

- Install the seating die into your reloading press as per the manufacturer's instructions.
- Adjust the seating plug to the desired depth for bullet seating.
- Ensure that the builtin crimp ring is set correctly for your application.

4. Using the Seating Die:

- Place a charged case in the shell holder and raise the ram to seat the bullet.
- Check the overall cartridge length to ensure it meets your specifications.
- Repeat the process for additional cartridges as needed.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not throw away the product in regular household waste. Check for recycling options or designated disposal sites in your area.

Contact Information for Further Support

For any inquiries related to product safety, usage, or support, please contact the manufacturer directly. Ensure you have your product details ready for reference.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and successful reloading experience with your Redding Neck Sizing Die Sets.
