# MEC Sizemaster Shell Press Safety Instruction Guide

## Introduction

Thank you for choosing the MEC Sizemaster Shell Press. This guide provides essential safety instructions to ensure the safe and effective use of your reloading press. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose, which is to reload shotgun shells.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and hearing protection, while operating the press.
- Keep the work area clean and free from clutter to prevent accidents.
- Store the press in a dry, cool place away from direct sunlight and moisture.
- Do not use the press if you notice any damage or malfunction. Report any issues immediately.

## Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of potential hazards such as sharp edges, moving parts, and the handling of reloading materials.
- **Children and Vulnerable Groups:** Keep the press and all reloading materials out of reach of children and vulnerable individuals. This product is not intended for use by individuals under the age of 18.
- **Handling Components:** Always handle primers and powders with care. Follow the manufacturer's guidelines for safe handling and storage.
- **Avoid Distractions:** Do not engage in conversations or distractions while operating the press to maintain focus and safety.
- **Emergency Procedures:** In case of an accident, know how to access first aid and emergency services.

## Instructions for Installation and Usage

### 1. Installation:

- Choose a stable and secure surface for mounting the press.
- Ensure the press is firmly bolted to the work surface to prevent movement during use.
- Follow the manufacturer's instructions for assembly and setup.

### 2. Usage:

- Always read the reloading data specific to the gauge you are using.
- Prepare all components (shells, primers, powder) before starting the reloading process.
- Follow these steps:
  - Insert the shell into the resizing station.
  - Use the EZ Prime automatic primer feed according to instructions.
  - Adjust the press for the specific shell gauge.
  - Fill the charge bar with the appropriate powder and adjust the powder bushings as needed.
  - Complete the reloading process by following the sequence outlined in the user manual.

## Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Recycle packaging materials where possible.

- Do not dispose of hazardous materials in regular trash. Consult local waste management authorities for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the MEC Sizemaster Shell Press, please refer to the product manual or visit the manufacturer's website for additional information and support.

By adhering to these safety instructions, you can ensure a safe and efficient reloading experience with your MEC Sizemaster Shell Press. Always prioritize safety and follow local regulations regarding reloading practices. Thank you for your attention to these important safety guidelines.
