

# PRO-SERIES CARBIDE + G1298 DIE SETS - REDDING 32 S&W LONG CARBIDE 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

For those of you who want the best in pistol dies consider a Redding Titanium Carbide Set. Titanium Carbide has the highest hardness of any readily available carbide and provides a slick, non-galling surface. The price is a little higher but no lubrication is needed and your cases will glide through the sizing die. Pro Series Pistol Die Sets are designed for use in progressive reloading machines. The expander die is eliminated from the set and a separate crimp die is substituted. The set includes a carbide sizing die, bullet seater (no crimp type), and a separate crimp die. Please note: These dies are specifically designed for progressive machines that expand the case mouth at the powder metering station so no expander die is included with this die set.

## Attributes

- Name: [REDDING 32 S&W LONG CARBIDE 3-DIE SET](#)
- Manufacturer: [REDDING](#)
- Product no.: 749101777

# **Safety Instruction Guide for PROSERIES CARBIDE + G1298 DIE SETS REDDING 32 S&W LONG CARBIDE 3DIE SET**

## **Introduction**

Thank you for choosing the PROSERIES CARBIDE + G1298 DIE SETS REDDING 32 S&W LONG CARBIDE 3DIE SET. This guide provides essential safety instructions to ensure safe and effective use of the die set. Please read this guide carefully before using the product.

## **General Safety Guidelines**

- Ensure that you are familiar with the operation of your reloading machine before using this die set.
- Always wear appropriate safety gear, including safety glasses, to protect your eyes from debris.
- Keep the work area clean and free of clutter to prevent accidents.
- Store the die set in a safe place, out of reach of children and pets.
- Regularly inspect the die set for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use and storage of reloading equipment.

## **Specific Safety Precautions for Use**

- Do not exceed the recommended load data when reloading ammunition.
- Ensure that the die set is compatible with your specific reloading machine.
- Avoid using the die set with damaged or worn components.
- Be cautious when handling and storing components such as primers, powders, and ammunition.
- Keep your hands and body clear of the reloading press when operating it.
- Always doublecheck your setup before starting the reloading process.

## **Instructions for Installation and Usage**

### **1. Installation of the Die Set:**

- Ensure that your reloading press is securely mounted and stable.
- Insert the carbide sizing die into the press and tighten it according to the manufacturer's instructions.
- Install the bullet seater die (no crimp type) in the same manner.
- Finally, install the separate crimp die into the press.

### **2. Usage of the Die Set:**

- Begin by resizing your brass cases with the carbide sizing die.
- After resizing, use the bullet seater die to seat the bullets to the desired depth.
- Use the crimp die to apply a crimp to the loaded ammunition, ensuring proper bullet retention.
- Check the dimensions of your finished ammunition to ensure they meet specifications.

### **3. PostUsage Cleaning:**

- After use, clean the die set to remove any residue or debris.
- Store the dies in a dry place to prevent rust and corrosion.

## Disposal Instructions

- Dispose of any damaged or worn parts of the die set according to local regulations.
- Ensure that all hazardous materials, such as primers and powders, are disposed of in a safe and environmentally responsible manner.

## Contact Information for Further Support

For any questions or concerns regarding the PROSERIES CARBIDE + G1298 DIE SETS REDDING 32 S&W LONG CARBIDE 3DIE SET, please consult your retailer or the manufacturer's customer service for assistance. Always refer to the product's official website for the most current information and updates.

Please ensure that you follow these safety instructions to promote a safe reloading experience. Thank you for your attention to safety!
