

MINI DEHUMIDIFIYER MODEL 365 - REMINGTON MINI DEHUMIDIFIER

[Shooting Accessories](#) > [Gun Storage](#) > [Safe Accessories](#)

Great For Humid Climates To Prevent Rust, Rot & Mildew

Compact, renewable unit removes moisture from closets, cabinets, gun safes, and enclosed areas to protect your guns and valuables from rust, corrosion, rot, and mildew. Odorless and non-toxic Water Glass Technology crystals absorb moisture for up to 60 days before regeneration is required. Self-contained—does not require power to operate. Just plug it in to a 110v outlet for 8 to 10 hours to completely regenerate. The indicator window will turn blue when the unit is fully charged and ready to absorb moisture; pink indicates it needs regeneration. Protects firearms from excessive moisture within a 333 cubic feet closure.

MINI DEHUMIDIFIER MODEL 365 REMINGTON

Safety Instruction Guide

Introduction

Thank you for choosing the MINI DEHUMIDIFIER MODEL 365 by Remington. This compact and renewable unit is designed to effectively remove moisture from enclosed spaces such as closets, cabinets, and gun safes, protecting your valuables from rust, corrosion, rot, and mildew. This guide provides important safety information and instructions to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the dehumidifier according to the manufacturer's instructions.
- Ensure the unit is placed on a stable and level surface to prevent tipping.
- Keep the dehumidifier away from direct sunlight, heat sources, and wet conditions.
- Avoid using the unit in areas where it may be exposed to water or moisture.
- Ensure that the unit is kept out of reach of children and pets.
- Regularly check the indicator window for regeneration status and follow the instructions for recharging.
- If the unit shows signs of damage or malfunction, discontinue use immediately.

Specific Safety Precautions for Use

- Do not immerse the unit in water or any other liquid.
- Avoid blocking the air vents of the dehumidifier.
- Do not use the unit outdoors or in damp environments.
- Only plug the unit into a 110v outlet for regeneration.
- Do not attempt to disassemble or repair the unit yourself.
- Ensure proper ventilation in the area where the dehumidifier is used.

Instructions for Installation and Usage

1. Placement:

- Place the dehumidifier in a dry, enclosed area such as a closet or cabinet.
- Ensure there is sufficient space around the unit for air circulation.

2. Regeneration:

- Plug the unit into a 110v outlet for 8 to 10 hours to regenerate.
- The indicator window will turn blue when fully charged and ready to absorb moisture.
- If the indicator turns pink, the unit needs regeneration.

3. Monitoring:

- Check the indicator window regularly to monitor the moisture absorption status.
- Replace the unit if it no longer effectively absorbs moisture or shows signs of damage.

Disposal Instructions

- Dispose of the dehumidifier in accordance with local regulations.
- Do not dispose of the unit in regular household waste.
- Ensure that any electronic components are recycled properly.

Contact Information for Further Support

For any safety inquiries or concerns regarding the product, please contact your local Remington representative or check the official website for additional resources.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the MINI DEHUMIDIFIER MODEL 365. Always prioritize safety and keep an eye on the product's condition to maintain its performance. Thank you for your attention to these important guidelines.
