

# SHAPED CERAMIC STONES - SPYDERCO CERAMIC FILE SET

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Stones](#)

## Sharp Edges, Easy Cleaning

Ceramics cut beautifully and uniformly using water (not messy oil) as the lubricant; they're resistant to shatter and breakage and literally last a lifetime. Cleanup consists only of washing with detergent and warm water to restore the original clean, white cutting surface. The cut is rated smooth and you can cut Hard Arkansas with these Ceramic files. After a bit of use and a few washings, the cut will become even finer.

## Attributes

- Name: [SPYDERCO CERAMIC FILE SET](#)
- Manufacturer: [SPYDERCO](#)
- Product no.: 824400000
- Mfr. No.:
- Style: Ceramic

# Safety Instruction Guide for SHAPED CERAMIC STONES SPYDERCO CERAMIC FILE SET

## Introduction

Thank you for choosing the SHAPED CERAMIC STONES SPYDERCO CERAMIC FILE SET. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the ceramic file set.

## General Safety Guidelines

- Always keep the ceramic files out of reach of children and vulnerable individuals.
- Inspect the ceramic files before each use for any signs of damage or wear.
- Use the ceramic files only for their intended purpose, which is to cut and shape materials like Hard Arkansas.
- Do not apply excessive force while using the files to avoid injury or damage to the files.
- Ensure that the workspace is clean and free from clutter to prevent accidents.
- Always use water as a lubricant when working with the ceramic files to ensure a smooth cut and to avoid mess.

## Specific Safety Precautions for Use

- Handle the ceramic files with care to avoid breakage. They are resistant to shatter, but excessive force can still cause damage.
- Avoid using the ceramic files on materials that are not intended for their use, as this may lead to injury or damage.
- When washing the ceramic files, use mild detergent and warm water. Do not use abrasive materials that may scratch the surface.
- Store the ceramic files in a safe place away from moisture and extreme temperatures to maintain their integrity.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your workspace is clean and organized.
- Gather your materials and tools, including water for lubrication.

### 2. Using the Ceramic Files:

- Select the appropriate file (Square, Triangle, or Round) based on your cutting needs.
- Wet the surface of the material you will be working on, and apply a small amount of water to the ceramic file.
- Begin filing gently, allowing the file to do the work. Avoid applying too much pressure.
- Rinse the file with water periodically to remove debris and maintain cutting efficiency.

### 3. After Use:

- Rinse the ceramic files thoroughly with warm water to remove any residue.
- Wash with mild detergent if necessary and dry completely.
- Store the files in a dry place, preferably in a protective case or pouch.

## **Disposal Instructions**

- Dispose of any broken or damaged ceramic files in accordance with local regulations.
- Do not dispose of the ceramic files in regular household waste if they are damaged. Check with local waste management for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the SHAPED CERAMIC STONES SPYDERCO CERAMIC FILE SET, please refer to the contact information provided on the packaging or product insert.

By following the safety guidelines and instructions outlined in this document, you will ensure a safe and effective experience with your ceramic file set. Thank you for your attention to safety!
