## SPRING KIT-BUFFER&XP 5-COIL BOLT EXTRACTOR SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Intermediate Power Buffer Spring. The Hot White spring came to life as an accident that turned out to be a valuable solution for certain platforms. Sprinco did a production run of White springs where the loads came in perfectly between the design loads of the White and Blue spring, so they sat them aside and did another run of White springs to the proper load specifications. When Sprinco had some calls from customers wishing for a spring that was in between the performance of a White or Blue spring, they had them try out the discarded springs on a trial basis, and they turned out to be perfect for their needs, thus, the evolution of the Hot White spring for tuning purposes. If you are among those who are advocates of using Mil-Spec carbine springs rather than tuning to perfection, this is also a good choice in the vast majority of instances to enhance performance.

### Attributes

- Name: [SPRINCO USA SPRING KIT-BUFFER&XP 5-COIL BOLT EXTRACTOR SPRING](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000036
- Mfr. No.: 25209

# M4 Carbine CS Intermediate Spring Kits Safety Instructions

## Introduction

Thank you for choosing the M4 Carbine CS Intermediate Spring Kits by Sprinco USA. This guide provides essential safety instructions and usage information to ensure safe and effective operation of your product. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure that all components are suitable for your firearm and compatible with other parts.
- Always handle the product with care to prevent injury.
- Store the spring kits in a cool, dry place out of reach of children.
- Use only as directed; misuse may result in injury or damage.
- Regularly inspect the springs for wear and tear before use.
- Report any unsafe conditions or incidents to the relevant authorities.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Improper installation or usage may lead to firearm malfunction.
- Springs under tension can cause injury if not handled properly.

### • Avoiding Hazards:

- Always wear safety glasses when installing or handling springs.
- Ensure the firearm is unloaded and pointed in a safe direction during installation.
- Do not modify the springs or use them in a manner not intended by the manufacturer.
- Keep hands clear of the spring area during installation and removal.

### • AgeSpecific Warnings:

- This product is not intended for use by individuals under the age of 18 without adult supervision.
- Ensure that inexperienced users are guided by knowledgeable individuals during installation and usage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and ensure your workspace is clean and organized.
- Verify that you have the correct intermediate spring kit for your firearm.

### 2. Installation Steps:

- Unload the firearm and ensure it is in a safe condition.
- Remove the existing buffer spring if applicable.
- Carefully install the new intermediate buffer spring by following the manufacturer's instructions.
- Ensure that the spring is seated correctly and securely.

### 3. Usage Instructions:

- Test the firearm in a controlled environment to ensure proper function after installation.
- Regularly check the performance of the spring during routine maintenance.

#### **4. PostInstallation:**

- Store any unused springs in a secure location.
- Dispose of any damaged springs in accordance with local regulations.

## **Disposal Instructions**

- Dispose of the product in accordance with local waste management regulations.
- Do not dispose of springs in fire or water.
- If the product is found to be defective or unsafe, report it to the appropriate authorities.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and usage of the M4 Carbine CS Intermediate Spring Kits, please refer to the EUbased contact point provided by the manufacturer or retailer.

By following these guidelines, you can help ensure your safety and the proper functioning of your M4 Carbine CS Intermediate Spring Kits. Always prioritize safety and seek assistance if you are unsure about any aspect of the product.
