

M4 CARBINE CS INTERMEDIATE SPRING KITS - SPRINCO USA

SPRING KIT-BUFFER ENHANCED 4-COIL BOLT EXTRACTOR SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Intermediate Power Buffer Spring. The Hot White spring came to life as an accident that turned out to be a valuable solution for certain platforms. Sprinco did a production run of White springs where the loads came in perfectly between the design loads of the White and Blue spring, so they sat them aside and did another run of White springs to the proper load specifications. When Sprinco had some calls from customers wishing for a spring that was in between the performance of a White or Blue spring, they had them try out the discarded springs on a trial basis, and they turned out to be perfect for their needs, thus, the evolution of the Hot White spring for tuning purposes. If you are among those who are advocates of using Mil-Spec carbine springs rather than tuning to perfection, this is also a good choice in the vast majority of instances to enhance performance.

Attributes

- Name: [SPRINCO USA SPRING KIT-BUFFER ENHANCED 4-COIL BOLT EXTRACTOR SPRING](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000037
- Mfr. No.: 25409
- Delivery weight: 0.077kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 337mm

M4 Carbine CS Intermediate Spring Kits Safety Instruction Guide

Introduction

Thank you for choosing the M4 Carbine CS Intermediate Spring Kits by Sprinco USA. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read the instructions carefully before installation and usage.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's guidelines.
- Regularly inspect the spring kit for any signs of wear or damage before use.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Keep the product out of reach of children and unauthorized users.
- In case of any accidents or unsafe conditions, report them to the appropriate authorities immediately.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications when using the spring kit.
- Ensure that all components are compatible with your firearm before installation.
- Avoid using the spring kit in conditions that may lead to excessive wear or damage.
- If you experience any malfunction while using the product, cease use immediately and consult a qualified professional.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and components for installation.

2. Installation:

- Remove the existing buffer spring from the firearm.
- Carefully install the M4 Carbine CS Intermediate Spring Kit by following these steps:
 - Align the spring properly with the buffer tube.
 - Ensure that the spring is seated correctly in the buffer assembly.
- Reassemble the buffer assembly and ensure all parts are securely fastened.

3. Usage:

- After installation, conduct a function check of the firearm to ensure proper operation.
- Regularly monitor the performance of the spring kit during use.
- Make adjustments as necessary based on performance feedback.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic and mechanical waste.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product performance, please reach out to the designated EU contact point listed on the product packaging or manufacturer's website.

Please follow these safety instructions to ensure a safe and effective experience with your M4 Carbine CS Intermediate Spring Kits. Your safety is our priority.
