

# M4 CARBINE CS INTERMEDIATE SPRING KITS - SPRINCO USA M4 CARBINE BUFFER SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Intermediate Power Buffer Spring. The Hot White spring came to life as an accident that turned out to be a valuable solution for certain platforms. Sprinco did a production run of White springs where the loads came in perfectly between the design loads of the White and Blue spring, so they sat them aside and did another run of White springs to the proper load specifications. When Sprinco had some calls from customers wishing for a spring that was in between the performance of a White or Blue spring, they had them try out the discarded springs on a trial basis, and they turned out to be perfect for their needs, thus, the evolution of the Hot White spring for tuning purposes. If you are among those who are advocates of using Mil-Spec carbine springs rather than tuning to perfection, this is also a good choice in the vast majority of instances to enhance performance.

## Attributes

- Name: [SPRINCO USA M4 CARBINE BUFFER SPRING](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000038
- Mfr. No.: 25203
- Delivery weight: 0.073kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 337mm
- UPC: 657780252039

# M4 Carbine CS Intermediate Spring Kits Safety Instruction Guide

## Introduction

Thank you for choosing the M4 Carbine CS Intermediate Spring Kits from Sprinco USA. This guide provides important safety instructions to ensure the proper use and handling of the product. Please read this guide carefully before installation and use to ensure a safe and effective experience.

## General Safety Guidelines

- Always handle the M4 Carbine CS Intermediate Spring Kits with care.
- Ensure the product is used in accordance with the manufacturer's guidelines.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use only with compatible M4 Carbine platforms.
- Ensure that the firearm is unloaded before attempting to install or replace the spring.
- Wear appropriate safety gear, including eye protection, during installation.
- Avoid using excessive force during installation to prevent damage to the spring or firearm.
- Do not modify the spring or use it in a manner not intended by the manufacturer.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure you have all necessary tools for installation.
- Read the installation instructions thoroughly before beginning.

### 2. Installation Steps

- Make sure the firearm is completely unloaded.
- Remove the existing buffer spring if applicable.
- Carefully install the M4 Carbine CS Intermediate Spring in the buffer tube, ensuring it is seated properly.
- Reassemble the firearm according to the manufacturer's instructions.
- Perform a function check to ensure the firearm operates correctly with the new spring.

### 3. Usage

- Use the firearm in a safe and controlled environment.
- Follow all local laws and regulations regarding firearm usage.
- Regularly clean and maintain the firearm to ensure optimal performance.

## Disposal Instructions

- Dispose of any damaged or worn springs in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options available in your area for metal products.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please refer to the manufacturer's website or customer support resources. It is essential to have access to accurate information for your safety and the safety of others.

Thank you for prioritizing safety while using the M4 Carbine CS Intermediate Spring Kits. Your attention to these guidelines helps ensure a safe and enjoyable experience.
