

M16 RIFLE CS STANDARD SPRING KIT - SPRINCO USA SPRING KIT STD BUFFER SPRING&ENHANCED 4COIL EXTRACT SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Standard Power Rifle Length Buffer Spring. The Green spring is for use in A1 / A2 fixed stock rifle length receiver extensions (buffer tubes) with rifle length buffers. It is also extremely popular in intermediate depth (7.75 " deep) VLTOR A5 buffer tubes with 4" A5 buffers. The spring design loads of the Green spring are those of a BRAND NEW mil-spec buffer spring. While the Green spring is primarily for use with lesser calibers such as .223, 5.56, 6.8 SPC, 6.5 Grendel, 7.62 X 39, etc. in A2 rifle length tubes, it may sometimes be appropriate for use in long BBL (20"+) rifle length gas BBL's in heavier calibers such as .308 and 6.5 CM, .260 Rem, etc.. (May not be effective for unsuppressed 7.62 X 51) In the latter scenario, an H2 or H3 carbine buffer has been used successfully in rifle length tubes with the Green spring. Over gassed heavier caliber guns with rifle length tubes may be addressed with our Red or Orange carbine springs and standard length 3.25" carbine buffers along with a spacer to yield the appropriate tube depth for the longer BCG's.

Attributes

- Name: [SPRINCO USA SPRING KIT STD BUFFER SPRING&ENHANCED 4COIL EXTRACT SPRING](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000046
- Mfr. No.: 25042
- Delivery weight: 0.084kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 337mm
- UPC: 657780250424

M16 Rifle CS Standard Spring Kit Safety Instruction Guide

Introduction

Thank you for choosing the M16 Rifle CS Standard Spring Kit by SPRINCO USA. This guide provides essential safety instructions and information for the proper use, installation, and disposal of the product. It is important to follow these guidelines to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the M16 Rifle CS Standard Spring Kit by following these guidelines:
 - Always handle firearms and related components with care and respect.
 - Keep the product out of reach of children and unauthorized individuals.
 - Use the product only in accordance with the manufacturer's instructions.
 - Regularly inspect the spring kit for wear or damage before use.
 - Do not modify the product in any way that could compromise its safety or performance.
 - Be aware of your surroundings and ensure a safe environment when using the product.
 - Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- When using the M16 Rifle CS Standard Spring Kit, observe the following precautions:
 - Ensure that the firearm is unloaded and pointed in a safe direction before installation or maintenance.
 - Use protective eyewear when handling or installing the spring kit to prevent injury from potential spring release.
 - Be cautious of the spring's tension when handling it, as it can cause injury if released unexpectedly.
 - Follow all local laws and regulations regarding firearms and their components.
 - If you are unsure about the installation or use of the spring kit, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

- Follow these steps for the proper installation and usage of the M16 Rifle CS Standard Spring Kit:

1. Preparation:

- Ensure you have the necessary tools for installation, including a screwdriver and a safe workspace.
- Verify that the firearm is unloaded and in a safe condition.

2. Installation:

- Remove the existing buffer spring from the buffer tube.
- Carefully insert the new Green spring into the buffer tube.
- Ensure that the spring is seated properly and is not obstructed.
- Reassemble the buffer tube and ensure all components are securely in place.

3. Usage:

- Test the functionality of the rifle after installation to ensure proper operation.
- Regularly check the spring for signs of wear or damage during routine maintenance.

Disposal Instructions

- When disposing of the M16 Rifle CS Standard Spring Kit, follow these guidelines:
 - Do not dispose of the product in regular household waste.
 - Contact your local waste management authority for information on proper disposal methods for firearm components.
 - Ensure that any disposed components are rendered unusable to prevent misuse.

Contact Information for Further Support

- For any inquiries regarding safety or product support, please refer to the manufacturer's website or contact their customer service for assistance.

By adhering to these safety instructions, you can ensure a safe and enjoyable experience with the M16 Rifle CS Standard Spring Kit. Thank you for your attention to safety and compliance.
