

# AR 308 M4 EXTENSION TUBE CS SPRING KIT - SPRINCO USA SPRING KIT-XP BUFFER SPRING W/ DUAL EXTRACTOR SPRINGS

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Extra Extra Power Buffer Spring. The Orange spring is much stouter than the Red spring. The Orange buffer spring was originally engineered for the demands presented by .308 / 6.5 CM / .260 Rem, etc., heavy BCG carbine DPMS Pattern applications using standard 7" Depth M4 extension tubes and short 2.5" buffers (Including aftermarket "heavy buffers") in robustly gassed 16" - 18" ML gas carbine platforms, but has been proven to be a requirement for tuning over gassed carbines of any equivalent heavy calibers in AR-10 pattern tubes with 3.25" buffers or lesser calibers (5.56, etc.).

## Attributes

- Name: [SPRINCO USA SPRING KIT-XP BUFFER SPRING W/ DUAL EXTRACTOR SPRINGS](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000048
- Mfr. No.: 25763
- Delivery weight: 0.073kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 337mm
- UPC: 657780257638

# Safety Instruction Guide for AR 308 M4 Extension Tube CS Spring Kit

## Introduction

Thank you for purchasing the AR 308 M4 Extension Tube CS Spring Kit by SPRINCO USA. This guide provides essential safety instructions and usage guidelines to ensure safe handling and optimal performance of your product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, such as eye protection, when handling the product.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for signs of wear or damage before each use.
- Store the product in a dry, secure location to prevent unauthorized access.

## Specific Safety Precautions for Use

- Do not exceed the recommended specifications for the buffer spring and associated components.
- Ensure that the buffer spring is compatible with your firearm model before installation.
- Be aware of the increased power of the Orange buffer spring compared to the Red spring; improper use may lead to malfunctions or safety hazards.
- Never modify or alter the product in any way, as this may compromise safety and performance.
- If you experience any unusual behavior while using the product, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and that the chamber is clear before beginning installation.
- Remove the existing buffer spring and buffer from the extension tube.
- Insert the Orange buffer spring into the extension tube, ensuring it is seated properly.
- Reinstall the buffer, ensuring that it is compatible with the new spring.
- Securely close the firearm and conduct a function check to ensure proper operation.

### 2. Usage:

- Always follow the manufacturer's instructions for your specific firearm model.
- Regularly clean and maintain your firearm and the installed components to ensure optimal performance.
- Monitor the firearm for any signs of overgassing or malfunction, especially when using the Orange buffer spring.
- If using in a competitive or highstress environment, regularly check the performance of the buffer spring and associated components.

## Disposal Instructions

- Dispose of the product in accordance with local regulations for firearm parts and materials.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the AR 308 M4 Extension Tube CS Spring Kit, please consult the manufacturer's website or customer service channels.

Thank you for prioritizing safety and compliance while using the AR 308 M4 Extension Tube CS Spring Kit. Your attention to these guidelines will help ensure a safe and effective experience.
