

# AR .308 DUAL EXTRACTOR CS SPRING UPGRADE KITS - SPRINCO USA SPRING UPGRADE KIT-XP 5-COIL EXTRACTOR SPRING/INNER SPRING

[Rifle Parts](#) > [Bolt Parts](#) > [Extractor Parts](#) > [Extractor Springs](#)

Sprinco's Extractor Springs are made of chrome silicon wirestock that has been heat treated, stress relieved, and cryogenic processing post winding. The springs are also plated with re-micronized molybdenum disulfide formulation. ADVANTAGES: XP 5-Coil spring has a heavier spring load than OEM springs, thus negating the need for a D-Fender™ ring or adding CRANE Viton O-Rings. Use 5-Coil spring with either black extractor spring insert OR CRANE Viton O-Rings, but not both. Enhanced 4-Coil springs maintain an extended duty cycle load of a NEW Mil-Spec spring and is recommended for use in 18"+BBL lengths for those who retrieve their brass for reloading. While the XP 5-Coil spring is totally reliable for all 5.56 BBL lengths, it can be aggressive on case rims in 18"+length BBL rifles, and may be too strong for some bolts with extremely tight bolt face tolerances. Extreme duty cycles provided while maintaining performance specifications. Unaffected by heat up to 750°F. D-Fender™ rings are NOT recommended for use with our 5-Coil extractor springs. Dual spring XP .308 extractor spring sets may be used with or without CRANE O-rings. May be required for use in DPMS G2 Bolts for full-auto use. Plug & play - May easily be the only extractor springs needed for the life of your bolt!!

## Attributes

- Name: [SPRINCO USA SPRING UPGRADE KIT-XP 5-COIL EXTRACTOR SPRING/INNER SPRING](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000055
- Mfr. No.: 26405
- Delivery weight: 0.005kg
- Shipping height: 51mm
- Shipping width: 3mm
- Shipping length: 64mm
- UPC: 657780264056

# Safety Instruction Guide for AR .308 Dual Extractor CS Spring Upgrade Kits

## Introduction

Thank you for choosing the AR .308 Dual Extractor CS Spring Upgrade Kits by Sprinco USA. This guide provides essential safety information, proper usage instructions, and disposal guidelines to ensure safe and effective use of this product. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used only in accordance with the manufacturer's instructions.
- Always handle the extractor springs with care to avoid injury.
- Store the springs in a dry, cool place away from direct sunlight and moisture.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the springs for wear or damage; replace them if any issues are found.
- Follow all local laws and regulations regarding firearm modifications and usage.

## Specific Safety Precautions for Use

- Do not use DFender™ rings with the 5Coil extractor springs.
- Ensure compatibility of the extractor spring with your specific firearm model before installation.
- Avoid using the 5Coil spring with both black extractor spring inserts and CRANE Viton ORings simultaneously.
- Be aware that the XP 5Coil spring may be aggressive on case rims in 18" or longer barrel lengths.
- For those using DPMS G2 Bolts in fullauto applications, ensure proper installation for safety and performance.
- If you experience any malfunctions or irregularities during use, cease operation immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and safety equipment.
- Ensure that the firearm is unloaded and in a safe condition before beginning installation.

### 2. Installation Steps:

- Remove the existing extractor spring from the firearm.
- Inspect the bolt face and extractor for any damage or debris.
- Install the new XP 5Coil extractor spring or the dual spring set as per your preference.
- If using CRANE ORings, install them according to the manufacturer's guidelines.
- Reassemble the firearm and ensure all components are securely in place.

### 3. Testing:

- Conduct a function check of the firearm in a safe environment to ensure proper operation.
- Test the extractor's performance with dummy rounds before live fire.

### 4. Usage:

- Always follow safe firearm handling practices during use.

- Monitor the extractor performance during use, especially if using in extended duty cycles.

## **Disposal Instructions**

- Dispose of the extractor springs in accordance with local regulations.
- Do not dispose of the springs in regular household waste.
- Consider recycling options if available in your area.

## **Contact Information for Further Support**

For safety inquiries or additional support regarding the AR .308 Dual Extractor CS Spring Upgrade Kits, please refer to the manufacturer's contact information provided on the packaging or product documentation.

By adhering to these guidelines, you can ensure the safe and effective use of your AR .308 Dual Extractor CS Spring Upgrade Kits. Always prioritize safety and compliance with local regulations when handling firearm components.
