## Match-Grade Pull From A Rugged, Reliable Drop-In Module

Drop-in trigger module fits any mil-spec small-pin AR-15 and delivers a light, superbly crisp trigger pull right from the box, with no adjustment or fine-tuning. Crisp, 4-lb. pull is safe enough for tactical operations and combat, yet light enough to ensure an ultra-clean break that's closer to a bolt action than a typical tactical rifle. Exceptionally short, positive reset gets you back on target and ready to take the next shot almost instantly. Unique hammer geometry keeps weight to a minimum for ultra-fast lock time, yet provides plenty of kick to ensure reliable ignition, even on hard military primers. A secondary "rescue" sear grabs the hammer if the primary sear fails when the weapon is dropped or severely jarred—meets military specifications for drop safety. CNC-machined, hardened tool steel hammer, sear, and trigger body with precision-ground contact surfaces are built to run hard in competition or combat, all contained in the rugged machined aluminum housing. TR-TTU - Single-stage pull has zero take-up and an ultra-clean break. TR-TTU-M2 - "Semi" two-stage, match-grade trigger has an abbreviated initial stage that establishes sear engagement for safe, reliable operation in high-stress tactical environments, followed by a clean second-stage release. TR-TTU-3G- Wilson Combat engineers have enhanced the TTU-3G trigger with a smooth, rolling, creep-free 3.5-4# break that is ideal for shooting rapid double-taps on the move from your high-performance AR-15. The 3.5# - 4# pound pull breaks with the extreme smoothness of finely tuned target-pistol trigger and has tactile feedback that gives a shooter the confidence to prep the trigger face during quick target transitions. The TTU-3G also has an enhanced, lightning-fast trigger reset that will make fast follow up shots a breeze and eliminate "trigger freeze" during the heat of competition or tactical shooting.

## Attributes

- Name: [WILSON COMBAT TR-TTU-3G TACTICAL TRIGGER UNIT 3 GUN](#)
- Manufacturer: [WILSON COMBAT](#)
- Product no.: 965000179
- Mfr. No.: TR-TTU-3G
- Style: Match Grade
- Weapon type: AR .308,AR-15
- Delivery weight: 0.068kg
- Shipping height: 36mm
- Shipping width: 84mm
- Shipping length: 168mm
- UPC: 874218006532

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for AR15/M16 Tactical Trigger Unit

## Introduction

Thank you for choosing the AR15/M16 Tactical Trigger Unit by Wilson Combat. This guide provides essential safety instructions to ensure the safe and effective use of your new trigger unit. Please read this guide thoroughly before installation and usage.

## General Safety Guidelines

- Ensure that the trigger unit is compatible with your firearm model. This product is designed for milspec smallpin AR15 configurations.
- Always treat your firearm as if it is loaded. This principle is crucial for safety.
- Store your firearm and trigger unit in a secure location, away from children and unauthorized users.
- Regularly inspect your trigger unit for wear and damage. Do not use if you find any signs of wear.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Be aware of your surroundings and ensure that you are in a safe environment when using your firearm.

## Specific Safety Precautions for Use

- The trigger pull weight is designed for tactical operations. Ensure that all users are trained and familiar with the trigger's sensitivity.
- Do not attempt to modify or disassemble the trigger unit. Any alterations can lead to malfunction and unsafe conditions.
- If the firearm is dropped or jarred, verify the functionality of the trigger unit before use. The secondary "rescue" sear is designed for safety, but always check for proper operation.
- Avoid using the trigger unit with ammunition that does not meet military specifications, as this could affect performance and safety.
- Ensure that all users are aware of the proper handling procedures and safety measures associated with the firearm and trigger unit.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing trigger unit according to the manufacturer's instructions.
- Insert the Wilson Combat Tactical Trigger Unit into the trigger housing, aligning the .154" trigger and hammer pins.
- Secure the trigger unit in place using the included .154" pins.
- Follow the installation instructions carefully to avoid improper installation.

### 2. Usage:

- Familiarize yourself with the trigger pull characteristics before engaging in live fire.
- Practice dry firing in a safe environment to get accustomed to the trigger's short reset and light pull.
- Always ensure that the firearm is pointed in a safe direction when practicing.
- If you experience any malfunctions or issues, cease use immediately and inspect the trigger unit.

## **Disposal Instructions**

- Dispose of the trigger unit responsibly, in accordance with local regulations for hazardous materials.
- Do not dispose of the trigger unit in regular household waste.
- Consider recycling options for metal components if available in your area.

## **Contact Information for Further Support**

For safety inquiries or support regarding the AR15/M16 Tactical Trigger Unit, please refer to the manufacturer's contact information included with your product packaging.

Please ensure that you follow these guidelines carefully to maintain safety and compliance with the EU General Product Safety Regulation (GPSR). Your safety is our priority.
