# N440 Gloves Safety Instruction Guide

## Introduction

Thank you for choosing the N440 Gloves Size 10. These gloves are designed to provide protection against a variety of hazardous materials, including oils, acids, caustics, greases, and solvents. This guide offers essential safety instructions to ensure safe and effective use of the gloves in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the gloves are the correct size for a proper fit.
- Inspect the gloves for any damage or wear before each use.
- Always use gloves in conjunction with other personal protective equipment (PPE) as necessary.
- Avoid direct contact with sharp objects that may puncture the gloves.
- Do not use the gloves in conditions that exceed their specified limits (e.g., exposure to extreme temperatures).
- Keep gloves away from open flames and high heat sources.
- Store gloves in a cool, dry place away from direct sunlight when not in use.

## Specific Safety Precautions for Use

- Ensure hands are clean and dry before putting on the gloves to maximize grip and comfort.
- Use gloves only for their intended purpose and against the specified materials.
- Do not use the gloves to handle food or beverages.
- If the gloves become contaminated, remove and dispose of them immediately.
- Avoid prolonged exposure to harsh chemicals; refer to the manufacturer's guidelines for specific limits.
- If you experience any irritation or allergic reaction while using the gloves, discontinue use and consult a medical professional.

## Instructions for Installation and Usage

### 1. Putting on the Gloves:

- Ensure your hands are clean and dry.
- Hold the glove by the cuff and gently slide your hand into the glove.
- Adjust the glove for a snug fit, ensuring fingers are properly positioned.

### 2. Using the Gloves:

- Use the gloves when handling hazardous materials as specified.
- Maintain a firm grip while using tools or handling objects.
- Avoid using excessive force that could damage the gloves.

### 3. Removing the Gloves:

- Carefully grasp the outside of the glove at the wrist.
- Pull the glove off, turning it inside out as you remove it.
- Dispose of the gloves properly if they are contaminated.

### 4. Cleaning and Maintenance:

- Do not wash or reuse disposable gloves.
- If gloves are reusable, clean them according to the manufacturer's instructions.

- Inspect gloves regularly for signs of wear or damage.

## **Disposal Instructions**

- Dispose of used gloves in accordance with local regulations for hazardous waste.
- Do not throw gloves in regular trash if they have been in contact with hazardous materials.
- Ensure that gloves are completely removed and contained before disposal.

## **Contact Information for Further Support**

For any inquiries regarding the N440 Gloves or safety concerns, please reach out to the designated EU contact point for assistance.

## **Conclusion**

By following these safety instructions, you can ensure the effective use of N440 Gloves while minimizing risks associated with hazardous materials. Always stay informed about product recalls and safety updates through the EU's Safety Gate platform. Thank you for prioritizing safety in your work.
