

NEW VAQUERO/ANNIVERSARY BLACKHAWK SHOOTERS PAKS - WOLFF 40/14 REDUCED POWER SHOOTERS PAK

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

For A Smooth Action, Fast Follow-Up Shots, Helps Improve Accuracy

Give your New Vaquero®, 50th Anniversary Blackhawk®, or other Ruger single-action revolver, a lighter cocking pull and ultra-smooth trigger with these easy-to-install, high-grade replacements for the factory springs. No time-consuming honing, filing, and other reworking of parts. These precision action springs are carefully manufactured for easy fitting to your revolver with only minor disassembly. Reduced power springs make cocking easier, lighten trigger pull, and improve accuracy. Kits include reduced power, 14 lb. hammer spring for easier cocking, and a choice of light 30 oz. or 40 oz. trigger spring, plus extra-power base pin latch spring for positive cylinder latching.

Safety Instruction Guide for NEW VAQUERO/ANNIVERSARY BLACKHAWK SHOOTERS PAKS WOLFF 40/14 REDUCED POWER SHOOTERS PAK

Introduction

Thank you for choosing the NEW VAQUERO/ANNIVERSARY BLACKHAWK SHOOTERS PAKS WOLFF 40/14 REDUCED POWER SHOOTERS PAK. This product is designed to enhance the performance of your Ruger singleaction revolver by providing a lighter cocking pull and improved trigger action. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle firearms with care and in accordance with local laws and regulations.
- Ensure that the revolver is unloaded before performing any installation or maintenance.
- Store the product and all related components out of reach of children and unauthorized individuals.
- Be aware of your surroundings and ensure you are in a safe environment when using your firearm.
- Regularly check for any signs of wear or damage to the product and your revolver.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that you are using the correct reduced power springs for your specific model of Ruger revolver.
- Do not exceed the recommended specifications for the hammer and trigger springs.
- Avoid using the product if it appears damaged or defective.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Be cautious of potential hazards such as accidental discharge and ensure the firearm is pointed in a safe direction during use.

Instructions for Installation and Usage

1. Preparation

- Ensure the revolver is completely unloaded.
- Gather necessary tools for minor disassembly (e.g., screwdriver, punch).
- Familiarize yourself with the revolver's manual for specific disassembly instructions.

2. Installation Steps

- Carefully disassemble the revolver according to the manufacturer's instructions.
- Remove the existing hammer spring and trigger spring.
- Install the reduced power 14 lb. hammer spring in place of the original.
- Choose either the light 30 oz. or 40 oz. trigger spring and install it accordingly.
- Reinstall the extrapower base pin latch spring to ensure positive cylinder latching.
- Reassemble the revolver, ensuring all parts are securely fitted.

3. Testing

- After installation, perform a function check to ensure that the revolver operates correctly.

- Test the trigger pull and cocking action to confirm the desired performance.
- If any issues arise, consult a qualified gunsmith for assistance.

Disposal Instructions

- Dispose of any old springs and components in accordance with local regulations.
- Do not discard any firearm parts in regular household waste.
- Consider recycling options where available.

Contact Information for Further Support
