

# RUGER® LCP® RECOIL SPRINGS - WOLFF LCP® 13 LB. RECOIL SPRING

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Factory weight is 9 lb. Use heavier 11, 12, or 13 lb. spring to improve cycling reliability, especially with hot loads. The LCP® recoil “spring” consists of an outer and inner spring; each recoil spring pair comes with an extra-power firing pin spring to further promote reliable ignition. Recoil Calibration Pak contains one each 11, 12, and 13 lb. recoil springs, plus three extra-power firing pin springs.

# **RUGER® LCP® RECOIL SPRINGS WOLFF LCP® 13 LB. RECOIL SPRING Safety Instructions**

## **Introduction**

Thank you for purchasing the RUGER® LCP® RECOIL SPRINGS WOLFF LCP® 13 LB. RECOIL SPRING. This product is designed to improve the cycling reliability of your firearm, especially when using hot loads. Please read this safety instruction guide carefully to ensure safe and effective use of the recoil springs.

## **General Safety Guidelines**

- Always handle firearms with care and follow all safety protocols.
- Ensure that the recoil springs are compatible with your specific model of firearm.
- Keep out of reach of children and unauthorized users.
- Regularly inspect your firearm and recoil springs for wear or damage.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Only use the recommended recoil spring weights (11 lb., 12 lb., and 13 lb.) for your LCP® model.
- Ensure that the firearm is unloaded before installing or replacing the recoil springs.
- Use caution when handling springs, as they may be under tension and can cause injury if released suddenly.
- Follow all manufacturer instructions when installing the recoil springs.
- If you experience any malfunctions while using the recoil springs, discontinue use immediately and consult a qualified gunsmith.

## **Instructions for Installation and Usage**

### **1. Unloading the Firearm**

- Ensure that the firearm is completely unloaded before beginning installation.
- Remove the magazine and visually inspect the chamber.

### **2. Removing the Old Recoil Spring**

- Carefully disassemble the firearm according to the manufacturer's instructions.
- Remove the old recoil spring from the guide rod.

### **3. Installing the New Recoil Spring**

- Select the desired recoil spring weight (11 lb., 12 lb., or 13 lb.) from the Recoil Calibration Pak.
- Place the new recoil spring onto the guide rod, ensuring it is seated correctly.
- Reassemble the firearm, following the manufacturer's instructions.

### **4. Testing the Firearm**

- After installation, perform a function check to ensure the firearm operates correctly.
- Fire a few rounds at a safe location to verify cycling reliability.

## **Disposal Instructions**

- Dispose of old recoil springs and any packaging materials in accordance with local regulations.
- Do not dispose of firearms or firearm accessories in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the RUGER® LCP® RECOIL SPRINGS WOLFF LCP® 13 LB. RECOIL SPRING, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can help ensure a safe and effective experience with your RUGER® LCP® RECOIL SPRINGS WOLFF LCP® 13 LB. RECOIL SPRING. Thank you for prioritizing safety.
