# Safety Instruction Guide for 17113 RUGER® SP101® KIT

## Introduction

Thank you for choosing the 17113 RUGER® SP101® KIT. This product is designed to enhance the performance of your RUGER SP101 firearm. It is important to read and understand these safety instructions to ensure the safe and effective use of this product.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling any components.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when working with firearm components.
- Store all firearm parts and tools in a secure location, away from children and unauthorized users.
- Regularly inspect your firearm and its components for wear or damage. If any part appears damaged, do not use it.
- Follow all local laws and regulations regarding firearm modifications and usage.

## Specific Safety Precautions for Use

- This kit contains reduced power hammer and trigger return springs. Improper installation or use may lead to unintended discharges or malfunctions.
- Ensure that the kit is compatible with your specific model of RUGER SP101. This kit does not fit SP101 .22 manufactured during and after 2011.
- Be aware that changing springs may alter the trigger pull weight, which could affect your shooting experience. Practice with the modified setup before relying on it for selfdefense or competition.
- Keep the workspace clean and free of distractions during installation to prevent accidents.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a screwdriver and a punch tool.
- Ensure your firearm is completely unloaded and pointed in a safe direction.

### 2. Installation of Hammer Spring

- Remove the grip from the firearm to access the hammer assembly.
- Carefully remove the existing hammer spring using the punch tool.
- Select the desired reduced power hammer spring from the kit (9 lb., 10 lb., or 12 lb.).
- Install the new hammer spring, ensuring it is seated properly.

### 3. Installation of Trigger Return Spring

- Locate the trigger assembly after removing the grip.
- Remove the existing trigger return spring with the screwdriver.
- Install the 8 lb. reduced power trigger return spring from the kit, ensuring it is securely in place.

### 4. Reassembly

- Reattach the grip to the firearm.
- Conduct a safety check to ensure all components are functioning correctly.

## 5. Testing

- Perform a function check in a safe environment to ensure that the firearm operates correctly with the new springs.
- If any issues arise, consult a qualified gunsmith for assistance.

## Disposal Instructions

- Dispose of any old springs and components in accordance with local regulations.
- Do not dispose of firearm parts in regular household waste. Instead, contact local authorities or a licensed firearms dealer for proper disposal methods.

## Contact Information for Further Support

For any inquiries or concerns regarding the 17113 RUGER® SP101® KIT, please refer to the manufacturer or an authorized dealer for assistance. Always keep documentation of your purchase and any modifications for your records.

## Conclusion

By following these safety instructions, you can ensure the safe and effective use of your 17113 RUGER® SP101® KIT. Always prioritize safety and compliance with local laws when handling firearms and their components. Thank you for your attention to these important guidelines.
