RECOIL SPRINGS FOR GLOCK® 17, 17L, 20, 21, 22 17 LB. SPRING KIT Safety Instruction Guide

Introduction

Thank you for choosing the RECOIL SPRINGS FOR GLOCK® 17, 17L, 20, 21, 22 17 LB. SPRING KIT. This product is designed to enhance the recoil function of your Glock firearm by replacing the factory spring with a noncaptive recoil spring and a striker spring. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always handle your firearm with care and ensure it is unloaded before performing any maintenance or modifications.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Ensure that you are familiar with the operation of your Glock firearm and understand how the recoil spring functions.
- Store this product and your firearm in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your recoil spring for wear and tear, and replace it if any damage is detected.

Specific Safety Precautions for Use

- Only use this recoil spring kit with Glock models 17, 17L, 20, 21, and 22.
- Ensure that the spring is installed correctly to avoid malfunctions. Refer to the installation instructions below.
- Do not exceed the recommended weight specifications. This kit is designed for a factory weight of 17 lbs for Model 17.
- If you experience any unusual behavior from your firearm after installation, discontinue use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a punch tool and a small hammer.

2. Removing the Factory Spring

- Disassemble your Glock firearm according to the manufacturer's instructions.
- Locate the factory recoil spring and striker spring.
- Carefully remove the factory recoil spring using the punch tool to assist if necessary.

3. Installing the New Spring

- Take the new noncaptive recoil spring and striker spring from the kit.
- Install the new recoil spring in the same orientation as the factory spring.
- Ensure that the striker spring is also installed correctly, following the orientation of the original spring.

4. Reassembling Your Firearm

- Once the new springs are in place, reassemble your Glock firearm according to the manufacturer's

instructions.

- Perform a function check to ensure everything operates smoothly.

5. Testing

- After installation, test your firearm in a controlled and safe environment.
- Monitor the performance of the new recoil spring during use.

Disposal Instructions

- Dispose of the old factory spring in accordance with local regulations regarding metal waste.
- Ensure that all packaging materials from the new spring kit are disposed of responsibly, recycling where possible.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please consult a qualified gunsmith or contact your local Glock dealer. Ensure that you have the product details at hand for efficient assistance.

By following these guidelines, you can ensure the safe and effective use of the RECOIL SPRINGS FOR GLOCK® 17, 17L, 20, 21, 22 17 LB. SPRING KIT. Thank you for prioritizing safety in your firearm handling and modifications.
