

Scope Ring Alignment and Lapping Kit 30mm - Scope Ring Alignment and Lapping Kit30mm

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Scope Alignment Rods](#)

Aligning and lapping of new rings should become the standard practice whenever a scope is installed on a quality firearm. The alignment bars in this kit provide for perfect alignment of both rings and will also diagnose any misalignment problem, vertical or horizontal, giving you the opportunity to fix the problem before damaging the scope or experiencing frustration at the range.

Wheeler Scope Ring Alignment and Lapping Kit

Consumer Safety Instructions

Introduction

Thank you for choosing the Wheeler Scope Ring Alignment and Lapping Kit. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before using the kit to align and lap your scope rings. Following these instructions will help you avoid potential hazards and ensure a successful installation.

General Safety Guidelines

- Always ensure the firearm is unloaded before using the alignment and lapping kit.
- Use the kit in a wellventilated area to avoid inhalation of any dust or debris.
- Keep the kit and its components out of reach of children and unauthorized users.
- Inspect the kit for any visible damage or defects before use.
- Follow all local laws and regulations regarding the use of firearms and related accessories.

Specific Safety Precautions for Use

- **Alignment Bars:** Ensure that alignment bars are securely positioned before making any adjustments. Misalignment can lead to damage to the scope or firearm.
- **Lapping Compound:** Use only the recommended lapping compound. Avoid contact with skin and eyes. If contact occurs, rinse immediately with water and seek medical attention if irritation persists.
- **Tools and Accessories:** Use only the tools provided in the kit. Do not substitute with other tools, as this may lead to improper alignment and potential injury.
- **Personal Protective Equipment:** Wear safety goggles and gloves when handling the lapping compound and during the alignment process to protect against debris and chemicals.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and organized.
- Gather all components of the Wheeler Scope Ring Alignment and Lapping Kit.

2. Aligning the Scope Rings:

- Place the alignment bars into the scope rings.
- Adjust the rings until both bars are parallel to one another.
- Check for any misalignment. If misalignment is detected, make the necessary adjustments.

3. Lapping the Scope Rings:

- Apply a small amount of lapping compound to the inside of the scope rings.
- Insert the alignment bars into the rings and rotate them slowly to ensure even distribution of the compound.
- Continue lapping until a uniform surface is achieved. Clean any excess compound from the rings.

4. Final Checks:

- After lapping, remove the alignment bars and inspect the scope rings for evenness and smoothness.

- Ensure that there are no scratches or irregularities that could affect the scope's performance.

5. Reinstallation:

- Once satisfied with the alignment and lapping, reinstall the scope according to the manufacturer's instructions.

Disposal Instructions

- Dispose of any unused lapping compound and materials in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Wheeler Scope Ring Alignment and Lapping Kit, please refer to the manufacturer's website or customer support resources for assistance.

By following these safety instructions, you can ensure a safe and successful experience using the Wheeler Scope Ring Alignment and Lapping Kit. Always prioritize safety and compliance with local laws when handling firearms and accessories.
