

# Scope Ring Alignment and Lapping Kit 1"

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Scope Alignment Rods](#)

Aligning and lapping of new rings should become the standard practice whenever a scope is installed on a quality firearm. The alignment bars in this kit provide for perfect alignment of both rings and will also diagnose any misalignment problem, vertical or horizontal, giving you the opportunity to fix the problem before damaging the scope or experiencing frustration at the range.

# Wheeler Scope Ring Alignment and Lapping Kit Safety Instructions

## Introduction

Thank you for choosing the Wheeler Scope Ring Alignment and Lapping Kit. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this document carefully before using the kit.

## General Safety Guidelines

- Ensure that the kit is used only for its intended purpose, which is aligning and lapping scope rings.
- Always inspect the kit for any signs of damage before use. Do not use damaged components.
- Keep the kit out of reach of children and vulnerable individuals.
- Use the kit in a welllit and stable environment to prevent accidents.
- Follow all local laws and regulations regarding firearms and scope installation.

## Specific Safety Precautions for Use

- Wear safety glasses to protect your eyes from debris while using the alignment bars and lapping tools.
- Avoid wearing loose clothing or jewelry that may get caught in the equipment.
- Ensure that the firearm is unloaded and pointed in a safe direction at all times during the installation process.
- Do not force any components; if they do not fit easily, check for misalignment or obstruction.
- If you experience any difficulty or uncertainty while using the kit, consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and ensure your workspace is clean and organized.
- Read the instructions for your specific scope and firearm to understand the installation process.

### 2. Aligning Scope Rings

- Place the alignment bars in the scope rings to check for proper alignment.
- Adjust the rings as necessary to ensure they are level and aligned with the rifle's bore.

### 3. Lapping Scope Rings

- Apply lapping compound to the lapping tool.
- Insert the lapping tool into the rings and rotate it gently to create a proper fit.
- Check frequently to avoid overlapping, which can damage the rings.

### 4. Final Inspection

- After lapping, remove any excess compound and inspect the rings for proper fit.
- Recheck alignment before mounting the scope.

### 5. Mounting the Scope

- Carefully mount the scope onto the aligned and lapped rings.
- Tighten the screws according to the manufacturer's specifications, ensuring even pressure on both sides.

## **Disposal Instructions**

- Dispose of any unused or excess lapping compound according to local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the kit in household waste; check for local disposal guidelines for firearms accessories.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Wheeler Scope Ring Alignment and Lapping Kit, please refer to the manufacturer's contact information provided in the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your Wheeler Scope Ring Alignment and Lapping Kit. Thank you for your attention to safety, and enjoy your shooting experience!
