

adjustable Gasblock .936

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Blocks](#)

- The detent is far away from the gas hole (low risk of carbon built-up)
- Well audible and perceptible detent with 20 positions
- Settings can be repeated at any time because there is no continuous adjustment
- Material 42CrMo4, surface hardened (little to no erosion by gas)
- Gas vent holes to prevent the adjusting screw from getting dirty, also known as gas bleed-out
- Symmetrical construction, which allows the barrel to remain free-floating, reducing the risk of contact between gasblock and handguard

SCHMEISSER Adjustable Gasblock Safety Instruction Guide

Introduction

Thank you for choosing the SCHMEISSER Adjustable Gasblock. This guide provides essential safety instructions and information to ensure the safe use, installation, and maintenance of your gas block. Please read this guide thoroughly before use.

General Safety Guidelines

- Ensure that the product is suitable for your firearm type (AR15).
- Always handle firearms and related components with care to prevent accidents.
- Use only compatible parts and accessories to avoid malfunctions.
- Regularly inspect the gas block for signs of wear or damage before each use.
- Store the gas block in a cool, dry place when not in use.
- Follow all local laws and regulations regarding firearm modifications and accessories.

Specific Safety Precautions for Use

- **Avoid Contact with Hot Surfaces:** The gas block may become hot during use. Always allow it to cool before handling.
- **Check for Proper Installation:** Ensure the gas block is securely installed to prevent it from coming loose during operation.
- **Monitor for Gas Leaks:** Regularly check for any signs of gas leakage, which can indicate improper installation or damage.
- **Use Protective Gear:** When installing or handling the gas block, wear appropriate safety gear, including gloves and eye protection.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and safe to work on before beginning installation.
- Remove the existing gas block if applicable.
- Clean the barrel area where the new gas block will be installed.
- Position the SCHMEISSER Adjustable Gasblock over the gas port on the barrel.
- Secure the gas block using the provided screws, ensuring it is tightened to the manufacturer's specifications.
- Doublecheck that the gas block is aligned correctly and is not obstructing the barrel.

2. Usage:

- Adjust the gas block to the desired position using the audible detent feature, which offers 20 positions for precise tuning.
- After adjustments, test fire the firearm to ensure proper function and gas flow.
- If experiencing malfunctions or irregularities, recheck the gas block installation and settings.

Disposal Instructions

- Dispose of the gas block in accordance with local regulations regarding metal and firearm component disposal.
- Do not dispose of in regular household waste. Instead, consider recycling options available in your area.

Contact Information for Further Support

For any safety inquiries or further support regarding the SCHMEISSER Adjustable Gasblock, please refer to the manufacturer's official contact channels or website.

Please remember that safety is a shared responsibility. Always prioritize safety when using firearms and related components. Thank you for your attention to these important safety instructions.
