

FULL LENGTH DIES FOR RIFLE CALIBERS - TRIEBEL Full Length Die 6 XC - 7/8"

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length.

In addition to a removable expander our FL dies have an integrated primer ejector pin.

All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut.

Specs:

- Thread: 7/8"
- Expander (diameter): 6.13mm

All relevant components have an article number for easy reordering if necessary.

TRIEBEL Full Length Dies for Rifle Calibers Safety Instruction Guide

Introduction

Thank you for choosing the TRIEBEL Full Length Die for your reloading needs. This guide provides important safety instructions and usage guidelines to ensure safe and effective operation of your die. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that all reloading equipment, including dies, is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Keep the reloading area clean and free of clutter to prevent accidents.
- Store reloading components, including dies, out of reach of children and unauthorized users.
- Regularly inspect your equipment for wear and damage. Replace any damaged parts immediately.
- Be aware of the specific cartridge for which the die is intended and ensure compatibility.

Specific Safety Precautions for Use

- Use the die only for the specified cartridge (6 mm XC) to prevent malfunctions or accidents.
- Avoid overtightening the die in the press, as this may cause damage to the die or the press.
- Ensure that the press is securely mounted to a stable surface to prevent movement during operation.
- Do not attempt to modify or alter the die in any way, as this may compromise safety and functionality.
- Keep hands and other body parts clear of the die during operation to avoid injury.
- Always follow the recommended procedures for sizing and calibrating the cartridge case to ensure proper neck tension.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is turned off and is in a safe position.
- Carefully thread the TRIEBEL Full Length Die into the reloading press using the 7/8" threads.
- Use the lock nut to secure the die in place, ensuring it is not overtightened.
- Attach the removable expander and primer ejector pin as needed.

2. Usage:

- Insert the cartridge case into the die, ensuring it is properly aligned.
- Operate the press to push the cartridge case into the die for sizing.
- After sizing, remove the cartridge case and inspect the neck for proper tension.
- If necessary, replace the expander or ejector pin with minimal effort.
- Follow the reloading manual for additional steps on powder measurement and bullet seating.

Disposal Instructions

- Dispose of any damaged or unusable dies and components in accordance with local regulations.
- Recycle materials when possible, ensuring that all hazardous materials are handled appropriately.
- Do not dispose of reloading components in regular household waste.

Contact Information for Further Support

For any safety inquiries or assistance regarding the TRIEBEL Full Length Die, please contact your local retailer or the manufacturer directly. Always refer to the product manual for any additional guidance.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your TRIEBEL Full Length Dies. Always prioritize safety and adhere to best practices for reloading ammunition. Thank you for choosing TRIEBEL.
