

X-10 Progressive Press with Case Feeder

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

Designed by reloaders for reloaders, the Frankford Arsenal FX-10 is a 10-station automatic indexing reloading press purpose-built from the ground up to be the ultimate progressive reloading press. At its core, the FX-10 features rigid steel construction with multiple ball bearings, and a proprietary 10-station shell plate which all combine to virtually eliminate powder spillage and bullet tipping. The FX-10 offers innovative improvements like dual decapping stations to prevent primer drawback, in-line primer pocket swaging capability (for both small and large primers), and the ability to run powder check and case trimming dies. The FX-10 includes a case actuated powder measure with a positive reset that guarantees you'll never have to worry about squib loads resulting from a sticking powder measure. When it's time to swap calibers, the FX-10's innovative design allows the user the ability to quickly and easily swap out tool heads and shell plates to reload anything from 9mm to .308 length cartridges. The FX-10 goes further and offers refined details like a roller handle, integrated LED light, and spring-loaded case locator buttons, which allow easy one-handed case feeding and lever operation, making the FX-10 exceptionally smooth and easy to operate. The included case feeder allows the user the ability to feed 9mm to .308 sized cases onto the FX-10 press for continuous reloading capability. Featuring automatic on/off sensor, an integrated LED light, and a sound-reducing lid, this case feeder increases your FX-10's output and makes reloading at volume even easier. Add the FX-10 Rifle or Pistol Bullet Feeders (sold separately), for the ultimate progressive reloading machine.

Due to weight limitations, this product will be repacked and shipped in two parcels

Safety Instruction Guide for FRANKFORD ARSENAL X10 Progressive Press with Case Feeder

Introduction

Thank you for choosing the FRANKFORD ARSENAL X10 Progressive Press with Case Feeder. This guide provides essential safety instructions to ensure safe operation and usage of the product. Please read this guide carefully before using the press. Adhering to these safety guidelines will help prevent accidents and injuries.

General Safety Guidelines

- Ensure that the press is used only for its intended purpose: reloading ammunition.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using the press.
- Keep the workspace clean and free of debris to prevent tripping hazards.
- Store the press in a dry and secure location when not in use.
- Ensure that all users are familiar with the operation of the press before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Be aware of potential hazards such as powder spillage, primer mishandling, and sharp edges.
- Avoid placing hands near moving parts during operation to prevent injury.

- **Avoiding Hazards:**

- Ensure that the press is securely mounted to a stable surface before use.
- Do not overload the press beyond its specified capacity.
- Use only approved components and accessories designed for the FX10 press.
- Keep children and pets away from the reloading area.

- **AgeSpecific Warnings:**

- This product is not intended for use by children. Keep out of reach of minors.
- Ensure that inexperienced users are supervised by a knowledgeable adult.

Instructions for Installation and Usage

- **Installation:**

1. Choose a stable and level surface for mounting the press.
2. Securely attach the press to the surface using appropriate fasteners.
3. Install the case feeder according to the manufacturer's instructions.
4. Ensure that all components are properly aligned and tightened before use.

- **Usage:**

1. Before starting, inspect the press and case feeder for any damage or wear.
2. Load the appropriate caliber cases into the case feeder.
3. Set the desired die configurations for the specific reloading task.
4. Operate the press in a smooth and controlled manner to avoid accidents.

5. Regularly check the powder measure for proper operation and adjust as necessary.

- **PostUse:**

- Clean the press and case feeder after each use to prevent residue buildup.
- Store the press in a safe location, ensuring it is not accessible to unauthorized users.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular waste. Contact local waste management services for guidance on safe disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or operation of the FRANKFORD ARSENAL X10 Progressive Press with Case Feeder, please refer to the manufacturer's website or customer service resources.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the FRANKFORD ARSENAL X10 Progressive Press with Case Feeder. Always prioritize safety and stay informed about best practices for reloading ammunition. Thank you for your commitment to safe reloading practices.
