

LED Lighting Module for Dillon XL650/750 - S1050/RL1100

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

High quality LED (light emitting diodes) for Dillon progressive presses are embedded in machined aircraft grade aluminum, and are super easy to install.

The bright dual LED drop in module helps you easily check your work while its minimalistic design ensures an unobstructed workspace.

The module is positioned in the center of the toolhead for Dillon XL650 and Hornady AP models, and comes with simple and effective clip-on mount for attaching to Dillon S1050 models allowing you to adjust the direction of illumination.

ARMANOV LED Lighting Module Safety Instructions

Introduction

Thank you for choosing the ARMANOV LED Lighting Module for Dillon XL650/750 S1050/RL1100. This product is designed to enhance your reloading experience by providing optimal lighting for precision work. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the product manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear. Do not use if damaged.
- Always follow the installation instructions to avoid hazards.
- In case of any malfunction, disconnect the power supply immediately and seek assistance.

Specific Safety Precautions for Use

- Do not expose the LED module to water or excessive moisture.
- Avoid using the product in environments with high temperatures or flammable materials.
- Ensure that the power supply is compatible with the LED module specifications.
- Do not attempt to repair the product yourself. Contact a professional for repairs.
- Use the product only with Dillon XL650/750 and Hornady AP models, or compatible presses.

Instructions for Installation and Usage

1. Unboxing and Inspection

- Carefully open the package and inspect the contents: LED module, 1.8m (6ft) rubberized cord, switch, power supply, and clipon mount.
- Check for any visible damage or missing parts.

2. Installation Steps

- Ensure the reloading press is turned off and unplugged.
- Locate the center of the toolhead on your Dillon XL650 or compatible model.
- Attach the LED module using the clipon mount provided for S1050 models.
- Adjust the direction of illumination as needed.

3. Connecting the Power Supply

- Connect the rubberized cord to the LED module.
- Plug the power supply into a suitable wall outlet.
- Turn on the switch to activate the LED module.

4. Usage Tips

- Utilize the LED lighting to check your work effectively.
- Maintain a clutterfree workspace to ensure safety and efficiency.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic waste.
- Do not throw the product in regular household waste.
- Check for local recycling programs that accept electronic devices.

Contact Information for Further Support

For any safety inquiries or support regarding the ARMANOV LED Lighting Module, please refer to the EU contact point for consumer safety inquiries.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your ARMANOV LED Lighting Module. Always prioritize safety and stay informed about product recalls or safety alerts through the EU Safety Gate platform. Thank you for your attention to these important guidelines.
