

Lock-N-Load Free-Float Quick Change Bushing

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Lock-N-Load Quick Change Bushings are to be used with the **Armanov Toolhead for Dillon Super 1050 / RL1100**.

These bushings are "Free-float" type and allow very slight play of the dies. This floating action allows the dies to center themselves exactly over each cartridge for the best possible alignment and more concentric ammunition. For best Free-float operation, we advise using **Free-Float Lock Rings**.

Bushings are made for a quick, simple and precise change of dies in the toolhead.

No need for a complete toolhead change anymore, just twist and replace any bushing with the die of your choice.

Change six dies on a Dillon Super 1050 / RL 1100 in seconds!

Bushing should be tightened with a supplied wrench.

Price includes 6 (six) Lock-N-Load Quick Change Bushings.

Lock-N-Load Quick Change Bushings are compatible with Hornady presses which feature Lock-N-Load system.

* Lock-N-Load is a registered trademark of Hornady Manufacturing Company.

Safety Instructions for ARMANOV LockNLoad FreeFloat Quick Change Bushing

Introduction

Thank you for purchasing the ARMANOV LockNLoad FreeFloat Quick Change Bushing. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before using the bushing.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to work with the Armanov Toolhead for Dillon Super 1050 / RL1100.
- Always follow the manufacturer's instructions for installation and use.
- Keep the product out of reach of children and vulnerable individuals to avoid accidental injury.
- Regularly inspect the product for any signs of wear, damage, or malfunction before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always use the supplied wrench to tighten the bushing securely to prevent it from loosening during operation.
- Do not exceed the recommended torque when tightening the bushing.
- Ensure that the dies are properly aligned before starting the reloading process.
- Avoid using the product if it shows any signs of damage or if the locking mechanism does not function properly.
- Use FreeFloat Lock Rings for optimal performance and safety.
- Do not attempt to modify or disassemble the bushing, as this may lead to malfunction or injury.

Instructions for Installation and Usage

1. Installation:

- Ensure that the Dillon Super 1050 / RL1100 is turned off and unplugged before installation.
- Select the die you wish to use and ensure it is clean and free from debris.
- Insert the die into the bushing.
- Place the bushing into the toolhead and twist it to secure it in place.
- Use the supplied wrench to tighten the bushing firmly, ensuring it is properly locked.

2. Usage:

- Once installed, check the alignment of the die with the cartridge before starting the reloading process.
- Follow the reloading procedure as per your Dillon Super 1050 / RL1100 manual.
- After use, ensure that the bushing is removed and stored safely.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, take it to a designated recycling facility.
- Ensure that any packaging materials are also disposed of responsibly.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the ARMANOV LockNLoad FreeFloat Quick Change Bushing, please refer to the manufacturer's customer support resources.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
