

Gauge box with Flip Cover - 100 rnd. - .40 S&W

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

Armanov 100 round Ammo Checker with Flip Cover is the shooting sports favourite reloading companion!

Since most malfunctions are ammo related, and most of those relate to deformed, bulging or otherwise defective brass - dropping the ammo into a gauge is an effective way to reduce the chance of a costly malfunction.

A lot of sports shooters reload their ammo, and so checking your ammo for consistency is a must, especially for competition.

Armanov Ammo Checker is machined from highest grade aluminium, with pockets finished using a special reamer made to tight CIP tolerances specification.

The height of the Gauge Box is precisely machined to the maximum overall round length of the respective caliber and this feature helps finding rounds with insufficiently seated bullets.

Improved Design!

New extra feature is the bottom caved level design, made for faster and simpler ejection out of the gauge box and into a container.

Because we know your fingers don't fit.

Available in calibers:

- 9x19
- 9x21
- .38 Super Comp / .Super Auto
- .40 S&W
- 10 mm Auto
- .45 ACP
- .357 Mag / .38 Special

The 100 pockets allow you to drop the rounds in a lot faster than into a single or 20 gauge boxes, cutting your testing time down to less than quarter of the time!

Gauge comes with free flip cover so you just flip your rounds to ammo boxes. No more double work.

With this tool you can test 100 rounds in almost the same time as it takes you to put the rounds in a case box.

This gauge box works best with MTM case guard boxes or Dillon precision ammo boxes for some models.

What comes in the box?

This product includes precision aluminium Ammo checker block and aluminium Flip cover.

Any other product which may appear on any photo or video on this page (such as OAL Uniformer, marking stencil, MTM ammo box or any other) is **not included**.

Safety Instruction Guide for ARMANOV Gauge Box with Flip Cover

Introduction

Thank you for choosing the ARMANOV Gauge Box with Flip Cover. This product is designed to enhance your reloading experience and improve the consistency of your ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Inspect the gauge box before each use for any signs of damage or wear.
- Keep the gauge box out of reach of children and vulnerable individuals.
- Do not use the gauge box for any purpose other than its intended use.
- Report any unsafe conditions or product malfunctions to the manufacturer immediately.
- Stay updated on recall notices and safety alerts through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the ammunition you are checking is compatible with the gauge box specifications.
- Avoid using deformed or damaged ammunition, as this may cause malfunctions or accidents.
- Handle the gauge box with care to prevent any physical injury.
- Always wear appropriate eye protection when testing ammunition.
- Do not overload the gauge box beyond its capacity of 100 rounds.
- When ejecting rounds from the gauge box, do so gently to avoid spills or accidents.

Instructions for Installation and Usage

1. Unboxing the Product:

- Carefully remove the gauge box and flip cover from the packaging.
- Inspect the contents to ensure that all items are included and undamaged.

2. Setup:

- Place the gauge box on a flat, stable surface to ensure proper operation.
- Open the flip cover to access the pockets for ammunition.

3. Loading Ammunition:

- Drop each round into the corresponding pocket of the gauge box.
- Ensure that each round is seated properly in the pocket.

4. Checking Ammunition:

- After loading, visually inspect each round for any defects.
- Use the gauge box to identify any rounds with insufficiently seated bullets or other issues.

5. Ejecting Ammunition:

- To remove rounds, gently flip the gauge box over into a container.
- Utilize the bottom caved level design for easier ejection.

6. After Use:

- Clean the gauge box and flip cover as needed to maintain functionality.
- Store the gauge box in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the gauge box responsibly when it reaches the end of its life cycle.
- Check local regulations for proper disposal methods of aluminum products.
- Recycle the gauge box and flip cover if possible, to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety, product performance, or other concerns, please refer to the manufacturer's contact details available on their official website or product packaging.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using the ARMANOV Gauge Box with Flip Cover.
