

# Rails Howa - MDT - Rails - 30 MOA - Howa 1500 LA

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Accessory Rails](#)

MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope\*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

# MDT Rails Howa MDT Rails 30 MOA Howa 1500 LA Safety Instruction Guide

## Introduction

Thank you for choosing the MDT Rails Howa MDT Rails 30 MOA for your Howa 1500 long action rifle. This product has been designed with precision and reliability in mind, providing a solid base for mounting your optics. Please read this safety instruction guide carefully to ensure safe and proper use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always ensure the product is used in accordance with the manufacturer's instructions.
- Inspect the product for any damage or defects before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

## Specific Safety Precautions for Use

- Ensure that the mounting area is clean and free from debris before installation.
- Do not exceed the recommended torque specifications when installing the rail.
- Use appropriate tools to avoid damaging the rail or the rifle.
- Always check the stability of the mounted optics before use.
- Be aware of potential hazards when handling tools or firearms.
- If you are inexperienced with firearm accessories, seek assistance from a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Preparation

- Gather the necessary tools: a torque wrench, appropriate screwdrivers, and any other tools specified by the manufacturer.
- Ensure your rifle is unloaded and in a safe condition before beginning installation.

### 2. Installation Steps

- Step 1: Align the MDT rail with the mounting holes on the receiver of your Howa 1500 rifle.
- Step 2: Insert the screws provided with the rail into the mounting holes.
- Step 3: Using a torque wrench, tighten the screws to the manufacturer's recommended torque specifications.
- Step 4: Check the alignment and stability of the rail once installed.
- Step 5: Mount your scope onto the rail following the scope manufacturer's instructions.

### 3. Usage Tips

- Regularly check the tightness of the rail and scope mounts, especially after heavy use.
- If you notice any movement or instability, retighten the screws or consult a professional.

## Disposal Instructions

- Dispose of the product in accordance with local regulations for aluminum materials.
- Do not dispose of the product in household waste.

- For environmentally safe disposal, consider contacting a recycling center that accepts aluminum products.

## **Contact Information for Further Support**

For any questions or concerns regarding the MDT Rails Howa MDT Rails 30 MOA, please contact the manufacturer directly through their official channels. Ensure that you have the product information available for reference.

Thank you for prioritizing safety and compliance. Enjoy your shooting experience with the MDT Rails!
