MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

MDT Rails Ruger Amer RF Safety Instruction Guide

Introduction

Thank you for choosing the MDT Rails Ruger Amer RF. This guide provides essential safety instructions and information for the safe installation and use of your Picatinny Rails. Please read this guide carefully to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential hazards associated with improper installation or use.
- Regularly inspect the product for any signs of wear or damage.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only with compatible bolt action rifles.
- Verify that the mounting surface is clean and free from debris before installation.
- Do not exceed the recommended torque specifications when securing the rails.
- Ensure that the scope is properly mounted and secured before use.
- Avoid using the product in extreme environmental conditions that may affect its integrity.
- Do not modify the product in any way, as this may compromise safety.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools: a torque wrench, appropriate screws, and a screwdriver.
- Ensure that the rifle is unloaded and in a safe condition before starting the installation.

2. Installation Steps

- Align the MDT Picatinny Rail with the mounting holes on the rifle's receiver.
- Make sure the rail is positioned flush against the receiver and matches the geometry of the ejection port.
- Insert the screws into the predrilled holes and handtighten them initially.
- Use a torque wrench to tighten the screws to the manufacturer's recommended specifications.
- Check the alignment of the rail and ensure it is securely attached.

3. Usage Guidelines

- After installation, mount your scope onto the Picatinny Rail.
- Ensure that the scope is securely fastened and aligned properly.
- Conduct a function check to ensure that the rifle operates correctly with the mounted scope.
- Regularly inspect the rail and scope for any signs of loosening or wear.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options available for aluminum materials.

Contact Information for Further Support

For any inquiries or support regarding the MDT Rails Ruger Amer RF, please refer to the manufacturer's website or contact the designated EUbased support center. Always ensure that you are using the latest safety information and product updates.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using your MDT Rails Ruger Amer RF product.
