

Rails - Savage MK2 - MDT - Rails - 40 MOA - Savage MK2

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Accessory Rails](#)

MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

MDT Rails Savage MK2 Safety Instruction Guide

Introduction

Thank you for purchasing the MDT Rails Savage MK2. This guide provides important safety information to ensure the safe use and installation of your Scope Base Picatinny Rails. Please read this guide carefully before using the product.

General Safety Guidelines

- Always ensure that the product is installed correctly before use.
- Inspect the product for any signs of damage or wear before installation.
- Only use the product as intended, following the manufacturer's guidelines.
- Keep the product out of reach of children and vulnerable individuals.
- In case of any malfunction or damage, cease use immediately and consult a professional.

Specific Safety Precautions for Use

- The rails are designed for specific models; ensure compatibility with your Savage MK2 rifle.
- Avoid using the product if you notice any cracks or deformities in the aluminum.
- Do not exceed the recommended weight limit for optics mounted on the rail.
- Ensure that the rail is securely fastened to prevent movement during use.
- Regularly check the tightness of the mounting screws to ensure stability.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure that the rifle is unloaded and pointed in a safe direction.

2. Installation:

- Remove any existing scope mounts from the rifle.
- Align the MDT rail with the mounting holes on the receiver of your Savage MK2.
- Secure the rail using the provided screws, ensuring they are tightened to the manufacturer's specifications.
- Check that the rail is flush against the receiver and that there is no gap.

3. Mounting the Scope:

- Follow the scope manufacturer's instructions for mounting the scope onto the rail.
- Ensure the scope is securely attached and that all mounting screws are tightened.

4. Final Checks:

- Inspect the installation to ensure there are no loose components.
- Confirm that the scope is properly aligned and adjusted for your shooting needs.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding aluminum and metal waste.
- Do not dispose of the product in household waste. Instead, take it to a designated recycling center.

Contact Information for Further Support

For any inquiries or safety concerns regarding the MDT Rails Savage MK2, please refer to the official manufacturer's website or contact your local retailer for assistance.

Thank you for ensuring safe practices while using the MDT Rails Savage MK2. Enjoy your shooting experience!
