

MEPRO RDS PRO V2 - ELECTO-OPTICAL RED DOT SIGHT PRO - RDS PRO V2 GREEN BULLSEYE ELECTRO OPTICAL RED DOT SIGHT

[Optics & Mounting](#) > [Electronic Sights](#) > [Reflex Sights](#)

The most vivid, high-contrast red dot optic on earth. The Mepro RDS Pro V2 red dot is the civilian counterpart to the battle sight trusted by the Israel Defense Force and other elite military and law-enforcement units worldwide. This battle-proven operative is the next iteration of the original Mepro RDS red dot. A Picatinny sight with an ultra-wide display window gives you outstanding situational awareness. It features a 2 MOA red dot, 16 brightness settings for lighting conditions, preset reticle patterns: dot or bullseye in red or green, and thousands of hours of run time for a single AA battery. The efficient LED power, auto-shutoff, and motion sensor keep the energy up, so it's ready when you need it most. Built as lives depend on it; because they do. The MEPRO RDS PRO V2 electro-optical red dot sight is rugged and reliable, the shockproof aluminum base that displays extreme durability, energy-efficient, compact optic sight, providing thousands of operating hours from a single "AA" battery (Alkaline or Lithium). 16 selectable brightness settings: 12 for daytime, 4 for Night Vision with GEN II and GEN III NVG's, allowing you to adjust to changing light conditions. The MEPRO RDS PRO V2 fits every tactical scenario in ambiances of brighter light or subdued light. The Mepro RDS PRO V2 is equipped with unique energy-saving features such as the Auto shut-off/Auto power-resume function. The sensor shuts the optic off to preserve battery life when not in use. It automatically turns back on when in motion. The large display window and clearly-defined reticle ensure rapid target acquisition with both eyes open and an Unlimited field of view, parallax free. The MEPRO RDS PRO V2 facilitates long-range target engagement and is compatible with Magnifying Scopes such as Mepro MX3F/T or other available models.

MEPRO RDS PRO V2 Safety Instruction Guide

Introduction

Thank you for choosing the MEPRO RDS PRO V2 ElectroOptical Red Dot Sight. This product is designed for reliable performance and safety. Please read this safety instruction guide carefully to ensure proper use and maintenance.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified in the user manual.
- Store the sight in a dry and secure place when not in use to prevent damage.
- Regularly check for any signs of wear or damage before use.
- Keep the sight out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding the use of optical sights.

Specific Safety Precautions for Use

- Do not look directly at the sun through the sight, as this can cause serious eye damage.
- Ensure that the sight is securely mounted to avoid accidental detachment during use.
- Always verify the zero of the sight before engaging in any shooting activities.
- Avoid exposing the sight to extreme temperatures or harsh environmental conditions.
- If the sight malfunctions or shows signs of damage, discontinue use immediately and seek professional assistance.

Instructions for Installation and Usage

1. Installation

- Ensure the firearm is unloaded and in a safe condition before installation.
- Select a suitable mounting location on the Picatinny rail of your firearm.
- Align the sight with the mounting rail and secure it using the provided mounting screws.
- Tighten the screws firmly but do not overtighten to avoid damaging the sight or firearm.
- Once installed, check for stability and ensure the sight does not move under pressure.

2. Usage

- Turn on the sight using the power button located on the side of the unit.
- Adjust the brightness settings according to the lighting conditions using the designated controls.
- Choose the desired reticle pattern (dot or bullseye) by following the instructions in the user manual.
- Use both eyes open for rapid target acquisition and to maintain an unlimited field of view.
- Engage targets at varying distances, ensuring proper alignment and focus.

Disposal Instructions

- Dispose of the sight and any electronic components in accordance with local regulations for electronic waste.
- Remove the battery before disposal and recycle it according to local battery recycling programs.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any questions regarding the MEPRO RDS PRO V2 or safety concerns, please contact the manufacturer or your local distributor for assistance. Make sure to have the product details and any relevant information ready for a quicker response.

By following these guidelines, you can ensure the safe and effective use of the MEPRO RDS PRO V2. Thank you for your attention to these important safety instructions.
