

# M-LOK EXTERIOR FOREND WEIGHTS (PAIR) - M-LOK Exterior Forend Weight With QD Sling Mount

[Rifle Parts](#) > [Build Kits](#) > [Handguards & Rails](#)

Perfect for adding weight and balance to your rifle.

Adding weight to a rifle can cut down on recoil, allow one to self-spot their shots and balance their rifle. These weights mount on to the exterior of any chassis or stock that is M-LOK compatible. They mount using standard hardware and M-LOK T-nuts, meaning that you can install and remove them as necessary on your system. Each weight features a QD flush cup to accommodate a sling.

# MLOK Exterior Forend Weights (Pair) Safety Instruction Guide

## Introduction

Thank you for choosing the MLOK Exterior Forend Weights. These weights are designed to enhance the performance of your rifle by adding weight and balance. This guide provides essential safety instructions to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the weights are compatible with your MLOK chassis or stock.
- Regularly inspect the weights for any signs of wear or damage before each use.
- Do not exceed the recommended weight limits for your rifle.
- Keep the weights out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Before installation, ensure that the rifle is unloaded and in a safe condition.
- Use only the provided or compatible hardware for mounting the weights.
- Ensure that the QD flush cup is securely attached to accommodate the sling.
- Avoid placing excessive force on the weights during installation to prevent damage.
- Do not use the weights in a manner that could cause injury to yourself or others.
- Be mindful of the added weight when handling and transporting your rifle.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your rifle is unloaded and in a safe condition.
- Gather the necessary tools, including a wrench for tightening the hardware.

### 2. Installation:

- Locate the MLOK slots on your chassis or stock.
- Align the weights with the MLOK slots.
- Insert the MLOK Tnuts into the slots.
- Secure the weights using the provided hardware. Ensure they are tightened adequately but do not overtighten.

### 3. Usage:

- Once installed, check the stability of the weights before using your rifle.
- Use the QD flush cup to attach your sling securely.
- Regularly inspect the weights for any signs of loosening or damage during use.

### 4. Removal:

- To remove the weights, simply unscrew the hardware and gently pull the weights away from the

MLOK slots.

- Store the weights in a safe place when not in use.

## **Disposal Instructions**

- Dispose of the weights in accordance with local regulations for metal and plastic waste.
- Do not dispose of the weights in regular household waste.
- Consider recycling the materials if possible.

## **Contact Information for Further Support**

For any inquiries regarding safety or productrelated questions, please refer to the appropriate contact point in your region. Ensure to have the product details on hand when seeking assistance.

Thank you for your attention to these safety instructions. Enjoy using your MLOK Exterior Forend Weights responsibly and safely.
