Speedtracker Mach IV Safety Instructions

Introduction

Thank you for choosing the Speedtracker Mach IV. This product is designed to provide accurate speed measurements with advanced features. To ensure safe and effective use, please read this safety instruction guide carefully. It is essential to follow all guidelines to minimize risks and enhance your experience with the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always handle the device with care to avoid damage.
- Keep the product out of reach of children and vulnerable individuals.
- Do not use the device in wet or excessively humid conditions to prevent electrical malfunctions.
- Regularly check for updates or recalls related to the product on the EU Safety Gate platform.
- Report any unsafe conditions or product malfunctions to the appropriate authorities.

Specific Safety Precautions for Use

- Before using the Speedtracker Mach IV, ensure that all components, including the parabolic adapter, are securely attached.
- Avoid pointing the radar directly at individuals or animals to prevent potential hazards.
- Do not operate the device while driving or in any situation that requires your full attention.
- Ensure that the Bluetooth connection is secure and does not interfere with other devices.
- Use the device in a stable environment to achieve the best measurement accuracy.
- Maintain a distance of at least 1 meter from any reflective surfaces to avoid erroneous readings.

Instructions for Installation and Usage

Installation

1. **Unpack the Product:** Carefully remove the Speedtracker Mach IV and all included components from the packaging.
2. **Attach the Parabolic Adapter:**
 - Align the adapter with the designated mounting area on the device.
 - Securely fasten the adapter until it clicks into place.
3. **Mounting:**
 - Use the weaver rail system to mount the device securely. Ensure that it is tightly fastened to prevent movement during use.
4. **Power On:**
 - Press the power button to turn on the device.
 - Wait for the device to initialize and establish a Bluetooth connection with your mobile phone.

Usage

- **Measuring Speed:**
 - Aim the device at the target you wish to measure.
 - Press the measurement button to initiate the speed tracking.
 - Read the results displayed on your mobile device.
- **Data Transfer:**
 - Ensure that your mobile device is within range to receive data via Bluetooth.
 - Follow the onscreen instructions on your mobile device for data transfer and control.
- **Power Management:**
 - The device provides up to 4 hours of continuous use. Charge the device as needed to ensure

optimal performance.

Disposal Instructions

- Dispose of the Speedtracker Mach IV in accordance with local regulations for electronic waste.
- Do not throw the device in regular household waste.
- Remove batteries before disposal if applicable, and recycle them according to local guidelines.

Contact Information for Further Support

For any questions regarding the Speedtracker Mach IV, please refer to the product manual or consult the manufacturer's website for additional support resources.

Thank you for prioritizing safety while using the Speedtracker Mach IV. Enjoy your experience!
