Speedtracker Mach IV Safety Instructions

Introduction

Thank you for choosing the Speedtracker Mach IV Sand Combo. This product is designed to enhance your experience with precision measurements while ensuring safety during its use. This safety instruction guide complies with the EU General Product Safety Regulation (GPSR) to provide you with essential information on how to use the product safely and effectively.

General Safety Guidelines

- Ensure the Speedtracker Mach IV is used only for its intended purpose as specified in the product manual.
- Keep the device out of reach of children and vulnerable individuals to prevent accidental misuse.
- Regularly inspect the device for any signs of damage or wear. Do not use if damaged.
- Follow all instructions for installation and usage to avoid potential hazards.
- Be aware of your surroundings when using the device to avoid accidents.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not expose the Speedtracker Mach IV to extreme temperatures, moisture, or direct sunlight for prolonged periods.
- Avoid using the device near strong electromagnetic fields, which may interfere with its functionality.
- Ensure the device is securely mounted to a weaver rail system to prevent it from falling during use.
- When utilizing the Bluetooth feature, ensure that your mobile device is compatible and that you follow all relevant Bluetooth safety guidelines.
- Do not attempt to disassemble or modify the device, as this may lead to malfunction or safety hazards.

Instructions for Installation and Usage

1. Installation

- Carefully unpack the Speedtracker Mach IV and check for all included components.
- Mount the device securely to a weaver rail system using the provided mounting hardware.
- Ensure that the device is positioned in a stable location to avoid movement during operation.

2. Usage

- Power on the device by pressing the designated power button.
- Connect the device to your mobile phone via Bluetooth as per the instructions in the product manual.
- Use the Parabolic Adapter to measure distances accurately up to 3 meters.
- Monitor the device's battery life and charge as necessary to ensure continuous operation.
- After use, power off the device to conserve battery life.

Disposal Instructions

- Dispose of the Speedtracker Mach IV in accordance with local regulations regarding electronic waste.
- Do not dispose of the device in regular household waste.
- Check with your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the Speedtracker Mach IV, including safety concerns or product support, please refer to the product manual for contact information of the manufacturer, SEKRTEK.

Thank you for your attention to these safety instructions. Your safety is our priority!
