

Yggdrasil Precision Tripod

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

We are thrilled to announce the launch of the Yggdrasil Precision Tripod from Wolfskrieger Germany, a game-changer in precision shooting. Made from cutting-edge forged carbon fiber, this tripod provides unparalleled stability, setting a new standard in the field.

Developed by North European PRS Shooters and Snipers, this tripod was designed to solve the common problems of stability and height. The result? Perhaps the biggest and most rigid tripod on the market—because, let's be honest, we're not exactly short.

Why back the Yggdrasil Precision Tripod?

Unrivaled Size and Stability: Weighing in at under 3kg, this tripod offers an impressive 180cm usable height, making it ideal for shooters up to 2m tall—perfect for both shooting and spotting

Forged Carbon Fiber

Unlike woven carbon fiber, forged carbon fiber is created under heat and pressure, resulting in a unidirectional material with enhanced strength and stability.

Superior Strength and Stability: The random fiber orientation in forged carbon fiber enhances strength and impact resistance, providing unmatched stability for precision shooting.

Lightweight Design: Despite its strength, forged carbon fiber is incredibly lightweight, making the tripod easy to transport without compromising durability. Even with its impressive size, the tripod weighs less than 3kg.

Uniform Performance: Forged carbon fiber provides consistent strength and stiffness in all directions, ensuring reliable performance under various shooting conditions.

44mm Leg Lock System

With super thick 44mm legs and a single lock mechanism, this system provides maximum stability and accuracy, allowing for quick adjustments and seamless setup and takedown.

Precision Ball Head with Quick Release Lever

The 40mm ball head offers smooth operation, with the lever mounted on the moving part to stay aligned with the firearm. This design helps you quickly find the lever through muscle memory, even in stressful situations.

Attributes

- Name: [Yggdrasil Precision Tripod](#)
- Manufacturer: [WOLFSKRIEGER](#)
- Product no.: EU2012668
- Mfr. No.: WKG-1315-BLK

- Colour: Black
- Style: Tripod
- Delivery weight: 3.8kg
- Shipping height: 1,105mm
- Shipping width: 135mm
- Shipping length: 125mm
- EAN: 0792649432570

Yggdrasil Precision Tripod Safety Instruction Guide

Introduction

Congratulations on your purchase of the Yggdrasil Precision Tripod from Wolfskrieger Germany. This tripod is designed for precision shooting, providing unparalleled stability and height for shooters of various sizes. To ensure safe and effective use of your new tripod, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- **Product Safety:** The Yggdrasil Precision Tripod complies with the EU General Product Safety Regulation (GPSR) to ensure safe use.
- **Potential Hazards:** Be aware of potential hazards such as instability during use, improper setup, and misuse of the tripod.
- **Enhanced Recalls:** In the unlikely event of a recall, standardized notices will be provided, and remedies will be offered for any dangerous products.
- **Online Shopping Protections:** If purchased online, you have the same safety protections as when buying in physical stores.
- **Vulnerable Groups:** Extra care should be taken when allowing children or inexperienced individuals to use the tripod.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate system.

Specific Safety Precautions for Use

- **Check Stability:** Always ensure the tripod is on a stable and level surface before use.
- **Weight Limit:** Do not exceed the weight limit specified for the tripod to avoid tipping or collapse.
- **Proper Setup:** Follow the installation instructions carefully to ensure the tripod is set up correctly.
- **Avoid Overextension:** Do not extend the legs beyond their maximum height to maintain stability.
- **Secure Equipment:** Ensure that any equipment mounted on the tripod is securely attached to prevent accidents.
- **Use in Safe Conditions:** Avoid using the tripod in adverse weather conditions that may affect stability, such as strong winds or rain.
- **Monitor Surroundings:** Be aware of your surroundings and ensure that the area is clear of obstacles and hazards when using the tripod.

Instructions for Installation and Usage

1. **Unpacking:** Carefully remove the tripod from its packaging and check for any visible damage.
2. **Leg Adjustment:**
 - To extend the legs, unlock the leg lock mechanism by twisting it counterclockwise.
 - Pull the leg to the desired length and secure it by twisting the lock mechanism clockwise.
 - Repeat for all three legs.
3. **Ball Head Adjustment:**
 - Attach your firearm or equipment to the 40mm ball head.
 - Adjust the ball head position using the quick release lever for optimal alignment.
4. **Final Checks:**
 - Ensure all locks are secure and the tripod is stable before mounting any equipment.
 - Test the stability by gently pushing the tripod to ensure it does not wobble.
5. **Using the Tripod:**
 - Position the tripod at a height that suits your shooting needs, ensuring it is stable.
 - Always keep an eye on the equipment mounted on the tripod during use.

Disposal Instructions

- **Recycling:** Dispose of the tripod responsibly by recycling the materials where possible.
- **Local Regulations:** Follow local regulations for the disposal of nonbiodegradable materials.
- **Environmental Consideration:** Do not dispose of the tripod in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding safety or product use, please consult the manufacturer's website or customer support resources.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Yggdrasil Precision Tripod. Thank you for choosing Wolfskrieger Germany.
