

Full Length Die 7/8 - Full Length Die 222 Rem Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Full Length Die 222 Rem Mag Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 222 Rem Mag. This product is designed for resizing cartridge cases and ensuring optimal performance during reloading. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that the die is used in accordance with the manufacturer's instructions.
- Keep the die and all related components out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Do not exceed the maximum load specifications for the cartridge case being resized.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in the press before use to prevent movement during operation.
- Use the lock nut to correctly position the die in the press; failure to do so may result in improper resizing and potential hazards.
- Always keep hands and other body parts clear of the die during operation to prevent injury.
- Do not attempt to modify or repair the die without proper knowledge and tools.
- Store the die in a dry, safe place to prevent rust and damage.

Instructions for Installation and Usage

1. Installation

- Begin by securing the die in the press.
- Use the lock nut to ensure that the die is positioned correctly.
- Confirm that the expander and ejector pin are properly installed and functioning.

2. Usage

- Insert the cartridge case into the die.
- Apply steady pressure to resize the case fully.
- The neck of the case will be calibrated as it is pushed out of the die.
- If necessary, replace the expander or ejector pin by following the manufacturer's instructions.

3. Calibration and Tension

- Check that the neck tension is appropriate after resizing.
- If adjustments are needed, follow the calibration instructions provided in the manual.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for designated recycling or disposal facilities.

for metal products.
