

Full Length Die 7/8 - Full Length Die 243 Win

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 for .243 Win Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 for .243 Win. This guide provides essential safety instructions and operational guidelines to ensure the safe and effective use of this product. Please read this manual carefully before using the die.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a safe place, out of reach of children and pets.
- Avoid distractions while using the die to maintain focus and safety.
- Regularly inspect the die for signs of wear or damage before each use.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the cartridge.
- Ensure that the die is securely mounted in the press before use.
- Always check that the cartridge case is free of obstructions before inserting it into the die.
- Use caution when handling primers, as they are sensitive to impact and heat.
- Do not attempt to modify or repair the die unless you are qualified to do so.
- Follow all local regulations and laws regarding ammunition reloading.

Instructions for Installation and Usage

1. Installation:

- Securely attach the Full Length Die to your reloading press using the provided lock nut and ensure it is tightened properly.
- Adjust the die to the desired height for your specific cartridge case.

2. Usage:

- Insert the cartridge case into the die, ensuring it is seated correctly.
- Pull the handle of the press smoothly to push the case into the die.
- The die will size the cartridge case and calibrate the neck tension as it is pushed through.
- After sizing, remove the cartridge case from the die and inspect it for proper sizing.
- If necessary, replace the expander or primer ejector pin with minimal effort.

3. Calibration:

- Calibration occurs automatically as the cartridge case is pushed into the die.
- Ensure that the die remains in the correct position during the process, using the lock nut for stability.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not dispose of the die or any accessories in regular household waste.

- Check with local authorities for proper disposal methods for metal and plastic components.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8 for .243 Win, please refer to the manual for further instructions and assistance in selecting accessories and spare parts. Always consult the EU contact point for safety inquiries.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience while using the Full Length Die 7/8 for .243 Win. For any further assistance, please consult the manual or contact your local support services. Stay safe and enjoy your reloading experience!
