

# Full Length Die 7/8 - Full Length Die 25-06 Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Full Length Die 7/8 Full Length Die 2506 Rem

## Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 2506 Rem. This product is designed to help you resize cartridge cases safely and effectively. Please read this safety instruction guide carefully to ensure proper use and compliance with safety standards.

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to resize cartridge cases.
- Keep the die and all its components out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, such as safety glasses, when using this product.
- Inspect the die and its components regularly for wear or damage. Do not use if damaged.
- Follow all local laws and regulations related to ammunition reloading and handling.

## Specific Safety Precautions for Use

- Do not exceed the recommended specifications for cartridge cases.
- Ensure the die is securely mounted in the press before use to prevent accidents.
- Avoid placing your hands near the die during operation to prevent injury.
- Use the die in a welllit area to ensure visibility and prevent mistakes.
- Be aware of the potential for metal shavings or debris during operation. Clean up any waste materials promptly.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Full Length Die to your reloading press using the 7/8 thread.
- Ensure the lock nut is tightened to maintain the correct position of the die in the press.
- Check that the expander and primer ejector pin are correctly installed.

### 2. Usage:

- Insert the cartridge case into the die, ensuring it is aligned properly.
- Operate the press to push the cartridge case into the die for resizing.
- After resizing, remove the cartridge case and inspect it for proper neck tension.
- If necessary, adjust the die position using the lock nut to achieve the desired results.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not throw the die or its components in regular trash if they are deemed unsafe.
- Contact local authorities for guidance on the safe disposal of reloading materials and equipment.

## Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the product manual or contact the manufacturer directly. It is important to have access to support for any questions or concerns regarding the use of this product.

By following these safety instructions, you can ensure a safe and effective experience with the Full Length Die 7/8 Full Length Die 2506 Rem. Always prioritize safety and compliance with applicable regulations during your reloading activities.
