

# Full Length Die 7/8 - Full Length Die 257 Wea Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instruction Guide

## Introduction

Thank you for purchasing the Full Length Die 7/8 for the 257 Weatherby Magnum. This guide provides essential safety instructions and usage information to ensure your experience is safe and effective. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure safe use of the Full Length Die by following all instructions in this guide.
- Be aware of potential hazards associated with reloading and handling ammunition.
- Always store the die in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the die for signs of wear or damage before each use.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when operating the die.
- Ensure the die is securely mounted in the press before use to prevent accidents.
- Do not exceed the recommended pressure limits when resizing cartridge cases.
- Keep your workspace clean and organized to avoid accidents.
- Never leave the die unattended while in use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the press is turned off and unplugged before installation.
- Securely attach the Full Length Die to the press using the provided lock nut.
- Adjust the die to the desired position, ensuring it is properly aligned.

### 2. Usage:

- Insert a clean cartridge case into the die.
- Operate the press to push the cartridge case into the die.
- The neck of the case will be calibrated as it is moved out of the die.
- Check the neck tension to ensure it meets your specifications.
- If necessary, replace the expander or primer ejector pin with minimal effort.

## Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Contact your local waste management facility for proper disposal methods.

## Contact Information for Further Support

For any inquiries regarding the Full Length Die or safety concerns, please refer to the manufacturer's website or contact customer support.

**Note:** Always stay informed about product recalls and safety updates. Check the EU's Safety Gate platform for the latest information on unsafe products.

Thank you for prioritizing safety while using the Full Length Die 7/8. Your adherence to these guidelines will help

ensure a safe reloading experience.
