

Full Length Die 7/8 - Full Length Die 6,8mm Rem SPC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Full Length Die 6,8mm Rem SPC Safety Instructions

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 6,8mm Rem SPC. This product is designed to help you size cartridge cases safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the Full Length Die by following all instructions provided in this guide.
- Be aware of potential hazards associated with the use of reloading equipment, including but not limited to:
 - Improper handling may lead to injuries.
 - Inadequate maintenance can affect the performance and safety of the die.
- Always store the product in a safe place, away from children and vulnerable individuals.
- Regularly check for product recalls and safety updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the die.
- Keep your work area clean and organized to prevent accidents.
- Do not use the die if it is damaged or worn. Inspect it regularly for any signs of wear and tear.
- Ensure that the die is securely mounted in the press before use to prevent it from loosening during operation.
- Do not attempt to modify the die or any of its components, as this may lead to unsafe conditions.

Instructions for Installation and Usage

1. Installation:

- Ensure the press is turned off and unplugged before installation.
- Securely attach the Full Length Die to the reloading press using the provided lock nut.
- Check that the die is positioned correctly and is tightened appropriately to avoid movement during use.

2. Usage:

- Insert the cartridge case into the die, ensuring it is aligned properly.
- Operate the press smoothly to push the cartridge case into the die.
- The neck of the case will be calibrated from the inside as it exits the die, forming the case and achieving the correct neck tension.
- If necessary, replace the expander and ejector pin with minimal effort by following the instructions in the manual.

3. Calibration:

- Calibration occurs automatically when the cartridge case is pushed into the die.
- Ensure that the die remains in the correct position during the calibration process, adjusting with the lock nut as needed.

Disposal Instructions

- Dispose of the Full Length Die and any associated components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling programs or hazardous waste disposal options in your area.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die, or if you require further assistance, please refer to the manual or contact your retailer for support. Ensure that your inquiries are directed to an EUbased contact for compliance with safety regulations.

By following these safety instructions, you can ensure a safe and effective experience with the Full Length Die 7/8 Full Length Die 6,8mm Rem SPC. Thank you for prioritizing safety in your reloading activities.
