

# Full Length Die 7/8 - Full Length Die 7x57

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instructions Manual

## Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This manual provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the die.

## General Safety Guidelines

- Ensure that the Full Length Die is used only for its intended purpose, which is to size cartridge cases.
- Always handle the die with care to avoid injury.
- Keep the die and all related components out of reach of children and vulnerable individuals.
- Inspect the die regularly for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading and safety.

## Specific Safety Precautions for Use

- Always wear safety glasses when operating the die to protect your eyes from potential debris.
- Use the die in a wellventilated area to avoid inhaling any fumes or particles.
- Keep your hands and other body parts clear of the die during operation.
- Ensure that the die is securely mounted in the press before use.
- Be cautious when replacing the expander or ejector pin; ensure the die is not in use.
- Avoid using excessive force when sizing cases, as this may lead to equipment failure or personal injury.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Full Length Die to your reloading press using the provided lock nut.
- Ensure the die is positioned correctly in the press for optimal performance.

### 2. Calibration:

- Insert the cartridge case into the die.
- The neck of the case will be calibrated as it is pushed out of the die, forming the case and achieving correct neck tension.

### 3. Replacing Components:

- If necessary, the expander and ejector pin can be replaced easily. Follow the manufacturer's instructions for proper replacement.

### 4. PostUse Care:

- After use, clean the die to remove any debris or residue.
- Store the die in a safe, dry place to prevent damage.

## Disposal Instructions

- Dispose of any damaged components or the die itself in accordance with local regulations.
- Do not dispose of the die in regular household waste if it is considered hazardous.

## Contact Information for Further Support

For any safety inquiries, assistance with the product, or to report unsafe conditions, please refer to the contact information provided on the packaging or the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the Full Length Die 7/8. Always prioritize safety and stay informed about product recalls and updates through official channels. Thank you for your commitment to responsible reloading practices.
