

# Full Length Die 7/8 - Full Length Die 270 Wea Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instruction Guide

## Introduction

Thank you for purchasing the Full Length Die 7/8 for the 270 Wea Mag. This guide provides essential safety instructions to ensure the safe use, installation, and disposal of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

- Always use the die according to the manufacturer's instructions to ensure safe operation.
- Inspect the die for any damage before each use. Do not use if damaged.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Wear appropriate safety gear, such as safety glasses, when using the die.
- Ensure that your workspace is clean, organized, and free from distractions.
- Report any unsafe products or accidents to the relevant authorities.
- Stay updated on product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the die is securely fitted in the press before use to prevent accidents.
- Use only compatible cartridge cases as specified in the product manual.
- Avoid applying excessive force during operation, as this may lead to injury or damage to the die.
- Do not attempt to modify the die or its components.
- When replacing the expander or ejector pin, follow the manufacturer's instructions carefully.
- Always calibrate the die according to the provided instructions to achieve the correct neck tension.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die into the press using the lock nut.
- Make sure the die is positioned correctly to ensure proper operation.
- Check that the expander and ejector pin are in place and functioning properly.

### 2. Usage:

- Insert the cartridge case into the die as per the calibration instructions.
- Push the cartridge case gently into the die until it is fully seated.
- Once calibrated, remove the cartridge case carefully.
- Inspect the neck tension and make adjustments if necessary.

### 3. Maintenance:

- Regularly clean the die and its components to prevent buildup of debris.
- Store the die in a dry, safe place when not in use.
- Replace worn or damaged components promptly to maintain safety and functionality.

## Disposal Instructions

- Dispose of the die and any damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Check with local authorities for specific disposal guidelines for metal and other materials.

## **Contact Information for Further Support**
