

Full Length Die 7/8 - Full Length Die 7,65x53 Arg

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 for resizing cartridge cases. This guide provides essential safety instructions to ensure the safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the die.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose of resizing cartridge cases.
- Always wear appropriate safety gear, including safety glasses and gloves, when using the die.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Inspect the die and its components regularly for wear and damage before use.
- Follow all manufacturer instructions and guidelines to prevent accidents and injuries.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended pressure settings while using the die to avoid damaging the die or causing injury.
- Ensure that the cartridge case is properly positioned in the die before applying pressure.
- Avoid using the die if it appears to be damaged or if any components are missing.
- Do not attempt to modify or alter the die in any way, as this can compromise safety.
- Use the die only in a wellventilated area to avoid inhaling any dust or debris generated during the resizing process.

Instructions for Installation and Usage

1. Installation:

- Secure the die in your reloading press using the lock nut to ensure it is stable during operation.
- Confirm that the die is set at the correct height for your specific press model.

2. Usage:

- Insert the cartridge case into the die, ensuring it is seated correctly.
- Pull the handle of the press smoothly to push the cartridge case into the die.
- Monitor the operation closely to ensure proper resizing and to prevent any jams or misalignments.
- After resizing, remove the cartridge case from the die and inspect it for proper neck tension and overall integrity.

3. Calibration:

- Calibration occurs automatically when the cartridge case is pushed into the die.
- Ensure that the neck of the case is calibrated from the inside as it is moved out of the die.

Disposal Instructions

- Dispose of any damaged or wornout parts of the die according to local regulations.
- Do not throw away the die in regular household waste. Check with local authorities for proper disposal methods for metal and tools.

Contact Information for Further Support

For any inquiries regarding safety, usage, or to report an unsafe product, please contact the manufacturer or your local distributor. Ensure you have the product's article number ready for reference.

By following these safety instructions, you can ensure a safe and effective experience with the Full Length Die 7/8. Thank you for your attention to safety and for choosing our product.
