

# Full Length Die 7/8 - Full Length Die 8x64 S

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Full Length Die 8x64 S Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 8x64 S. This product is designed to help you size your cartridge cases safely and effectively. To ensure your safety and the proper functioning of this product, please read this safety instruction guide carefully before use.

## General Safety Guidelines

- Always read and follow the manufacturer's instructions.
- Ensure that the die is used in accordance with the specifications provided.
- Keep this product out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe product incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use the die only with compatible cartridge cases.
- Always wear appropriate safety gear, such as safety glasses, when using the die.
- Ensure that the die is securely mounted in the press before use to avoid accidents.
- Do not attempt to modify or repair the die yourself; contact a qualified professional if repairs are needed.
- Use the die in a wellventilated area to minimize exposure to any fumes generated during the reloading process.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is turned off and unplugged before installation.
- Securely attach the Full Length Die to the reloading press using the provided lock nut.
- Confirm that the die is positioned correctly and is stable.

### 2. Calibration:

- Insert the cartridge case into the die.
- Push the cartridge case into the die to calibrate the neck from the inside.
- Check the neck tension to ensure it is within the desired specifications.

### 3. Usage:

- After calibration, remove the cartridge case from the die.
- Inspect the case for any irregularities or defects before further processing.
- If necessary, replace the expander or ejector pin with minimal effort as outlined in the manual.

## Disposal Instructions

- Dispose of the product in accordance with local regulations for hazardous waste.
- Do not dispose of the die in regular household waste.
- If the die is damaged or no longer in use, contact local waste management services for proper disposal methods.

## Contact Information for Further Support

For any inquiries regarding safety, usage, or replacement parts, please refer to the manufacturer's contact details provided in the product manual.

By following these safety instructions, you can ensure a safe and effective experience with the Full Length Die 7/8 Full Length Die 8x64 S. Always prioritize safety and compliance with the EU General Product Safety Regulation (GPSR) while using this product.
