

Bench-Rest Neck Die 7/8 - Bench-Rest Neck Die 6x70 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Bench-Rest (BR)-Neck-Die guides the cartridge case over the full length before the cartridge case will be formed with an interchangeable precision ground bushing.

The guide sleeve has the internal contour of the cartridge chamber to cover the cartridge case.

The guide sleeve and the body of this reloading-die are perfectly matched to ensure exact axial alignment of the cartridge during the sizing process.

AVAILABLE

Of course, the BR-Neck-sizer has an optional expander and the exchangeable primer ejector pin.

This die is the perfect choice for those, who want to leave nothing to chance when reloading.

All relevant components have an article number for easy reordering if necessary.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRest Neck Die Safety Instructions

Introduction

Thank you for choosing the BenchRest Neck Die 7/8 for your reloading needs. This guide provides essential safety instructions and usage guidelines to ensure safe and effective operation of the die. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation and handling of reloading equipment before using this product.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading materials.
- Keep the work area clean and free of distractions to maintain focus during the reloading process.
- Store the die in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the die and all related equipment for wear and damage before each use.
- Follow all local laws and regulations regarding the use and storage of reloading equipment and materials.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the cartridges you are reloading.
- Always ensure that the die is properly secured in your reloading press before use.
- Avoid using the die with damaged or improperly sized cartridge cases.
- Be cautious when handling primers and powder; these materials can be hazardous if mishandled.
- If you experience any unusual resistance during the sizing process, stop immediately and inspect the die and cartridge case for issues.
- Never leave the reloading process unattended; always monitor the operation closely.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is compatible with a 7/8 thread size.
- Securely attach the BenchRest Neck Die to the reloading press, ensuring a tight fit to prevent movement during operation.

2. Setting Up:

- Insert the cartridge case into the guide sleeve of the die.
- Adjust the die according to the specifications for the cartridge you are working with.
- If using the optional expander or primer ejector pin, install these components as needed.

3. Reloading Process:

- Begin the sizing process by pulling the handle of your reloading press smoothly and steadily.
- Monitor the alignment of the cartridge case throughout the sizing to ensure proper formation.
- After sizing, remove the cartridge case and inspect for any irregularities or signs of damage.

4. PostUse Care:

- Clean the die after each use to remove any residue or debris.
- Store the die in a protective case or container to prevent damage.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local waste management regulations.
- Do not dispose of reloading materials in regular household waste; follow specific guidelines for hazardous materials.
- Ensure that all used cartridge cases are recycled or disposed of properly.

Contact Information for Further Support

For any questions or concerns regarding the BenchRest Neck Die, please refer to the manufacturer's manual or contact your local retailer for assistance.

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with the BenchRest Neck Die. Always prioritize safety and adhere to best practices while handling reloading equipment.
