Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

NO IMAGE  
AVAILABLE

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

## Attributes

- Name: [Seater with Crimp 5,45x39](#)
- Manufacturer: [TRIEBEL](#)
- Product no.: EU2012854

# Safety Instruction Guide for Seater with Crimp 7/8

## Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to assist you in the precise seating of bullets while allowing for crimping options. To ensure your safety and the safe use of this product, please read and follow the guidelines outlined in this manual.

## General Safety Guidelines

- Always use the Seater with Crimp 7/8 in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free of obstructions to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Use personal protective equipment (PPE) such as safety glasses and gloves during operation.
- Be aware of your surroundings and ensure that no one is in close proximity while using the product.
- In case of an emergency, seek immediate assistance and report any incidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Thread Compatibility:** Ensure that the thread of your reloading press is compatible with the 7/8 thread of the Seater.
- **Crimping Option:** Use the crimp feature only when necessary and ensure that the crimp is applied uniformly to avoid cartridge malfunction.
- **Bullet Selection:** Choose the appropriate seater head for the bullet type you are using. This can significantly improve concentricity and overall performance.
- **Replacement of Seater Head:** When replacing the seater head, ensure the equipment is turned off and disconnected from power sources to avoid accidental activation.
- **Proper Handling:** Always handle the Seater with Crimp 7/8 with care. Avoid excessive force which may damage the unit or cause injury.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Seater with Crimp 7/8 to your reloading press, ensuring it is properly aligned.
- Confirm that the seater head is correctly fitted and tightened to prevent it from loosening during use.

### 2. Usage:

- Adjust the depth of the bullet seating according to your specifications.
- Insert the bullet into the case mouth and engage the seater head slowly to seat the bullet.
- If crimping, adjust the crimping mechanism to the desired depth and apply crimp pressure evenly.
- After use, clean the Seater with a soft cloth and store it in a safe place.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the Seater with Crimp 7/8 is no longer in use, consider recycling components where possible.
- Do not dispose of the product in general waste if it is damaged or contains hazardous materials. Follow local regulations for hazardous waste disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 7/8, please refer to the manufacturer's contact details provided in the product documentation or visit the manufacturer's website for further assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Seater with Crimp 7/8. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
